Luncheons Offer Insights and Interaction

OLLI ladies—and gentlemen—who lunch this fall will enjoy the insights of a stellar slate of speakers along with social interaction and good meals.

“We have chosen outstanding people, well known in the community, for the luncheons,” says Dr. Betty Jeans Craige, OLLI curriculum chair. “The social aspect is also very important with the opportunity to sit down and get to know people. It is really fun.”

The luncheons, organized by John Rudy and Dona Conway, will be held at Central Presbyterian Church or Trumps Catering, beginning at noon with programs from 12:45 to 1:30 p.m. Dr. Scott Shamp, director of the UGA New Media Institute, which focuses on business and career applications of communication technologies, will kick off the series Sept. 3 with a look at how social media will shape the presentation of information. Probate Judge Susan Tate will conclude the fall luncheons Dec. 3 with colorful and entertaining stories of “Red Mouth Lawyers” past and present.

Other presenters include ecology professor Dr. Jim Porter discussing how butterflies reflect a changing world; voice professor and opera director Frederick Burchinal, singing technique and the performance process; state representative and Habitat for Humanity director Spencer Frye, choosing a service career; Compassionate Care Hospice Director Debbie Furbish, strategies to navigate the health care system; and president Dr. Flora Tydings, an update on Athens Technical College.

The OLLI Luncheon Programs are a special part of the overall fall curriculum, which offers more than 120 courses, as well as a variety of ongoing special interest groups and travel opportunities. “This is a record,” Craige points out. “This is the largest number of courses we have ever had, but the classes are still small. We just have more choices.” Subjects range from fitness to finance to fine arts, with 17 classes in science and in history.

The organization also has a record number of members, some 1070, according to Craige. “These days we do not have to work hard to get people. They hear about us and want to join. I’ve been in classes when all these smart people were responding and joking and the teacher was getting funny too—everybody was having a good time.

“OLLI has a wonderful culture and it’s great to be a part of it.”

How to Register Online

1. Visit the OLLI website, www.oli.uga.edu
2. Click on Register in the left column.
3. Check your course registration in the confirmation email.

Note: You can also register for courses by submitting to the OLLI office, by mail or in person, a completed OLLI@UGA Course Registration and Payment Form. You can even call the OLLI office and pay by credit card over the phone. Just remember you will not be confirmed for a course until payment is received.
Dear OLLI friends:

I hope you will find many courses to enjoy in OLLI's course catalog.

As you know, OLLI provides courses to our members for the purpose of education only. All of our instructors have agreed not to advertise or sell to class participants any products or services from which they benefit financially. We hope that OLLI's policy, in keeping with the University’s conflict-of-interest regulations, will prevent exploitation, intended or unintended.

We are delighted that OLLI’s curriculum includes courses offered by accomplished individuals with expertise in arts, scholarly disciplines, health, commerce, and industry. We want to provide a wide-range of excellent courses appealing to OLLI members' many different interests. Our talented instructors may discuss art they have created, books they have written, industries in which they work, and non-profit organizations in which they participate as long as they do not sell or advertise to the class any products or services from which they benefit financially.

OLLI does not endorse any products or services offered by OLLI instructors.

Please continue to share your opinions on the courses you take by evaluating them online. Your evaluations will help the Curriculum Committee recruit courses to your liking in the future.

Thank you.

Betty Jean Craige
Chair of OLLI Curriculum Committee

---

Don’t forget that your membership must be current in order to sign up for classes and participate in our many Special Interest Groups.

---

How to Register by Mail

Complete the OLLI@UGA Course Registration and Payment Form found in the Course Book.

Fill in your name, address, phone number and email address in the spaces provided. The form can accommodate registration information for two registrants paying by a single check or credit card transaction.

To register for courses, write the first few words of course titles on the form (complete titles are not necessary), then for each course fill in class fee, parking fee, and number of parking tags purchased.

In the class fee column, there is space to pay membership dues if applicable and to make a donation if desired. Sum the three columns and add together the totals in the class and parking fee columns to determine the total payment required. If there is a second registrant, repeat the process and add together the total payments required for each registrant.

Provide payment information on the lower portion of the form.

- If paying by check, make it payable to OLLI@UGA and be sure to include the check number on the payment form.
- If paying by MasterCard, Visa, or Discover, provide requested information (card number, expiration date, cardholder’s name and signature).

Mail the completed OLLI@UGA Course Registration and Payment Form, along with your check if applicable, to:

OLLI@UGA

Health Care Strategies
*Debbie Furbish*

**Tuesday, December 3**
Red Mouth Lawyers: Tales at the Bar
*Judge Susan Tate*
Alphabetic Course Listing with Descriptions

**Afghanistan: The Importance of Water**  
*Laura Jean Palmer-Moloney*

To understand the past, present, and future situation in Afghanistan, the importance of water must be understood. Typically it has been considered an “essential service” and an infrastructure issue more closely tied to the Department of State than to the Department of Defense. This lecture will demonstrate water’s key role in strategic dialogue, highlighting “water complexity” issues in the Helmand River watershed.

Moving from her career as an established geography professor, Dr. Laura Jean Palmer-Moloney joined U.S. government service first as a visiting research scientist with the National Geospatial-Intelligence Agency and then as a federal employee with U.S. Army Corps of Engineers in 2009. She deployed and served as senior advisor on watershed management to the Commander of Regional Command Southwest from 2011-2012. As such, she served on the Stability Operations staff, Camp Leatherneck, Helmand Province, Afghanistan.

**Wednesday, October 2, 2013**  
1:00-3:45 PM  
River’s Crossing  
1 session  
8.00 plus parking

**Alternative Health Options for Enhancing Well-being**  
*Evan Greller*

This two session course will explain the theory and effectiveness of several holistic healing practices, including Chiropractic, Acupuncture, Massage Therapy and Naturopathic Medicine.

Dr. Evan Greller has owned the Athens Atlas Chiropractic Center in Athens, Georgia since 1998. Dr. Greller received his B.S. in Biology from Indiana University in 1993, and a Doctor of Chiropractic from Logan College of Chiropractic in Saint Louis, Missouri in 1996. In addition to running his practice, Dr. Greller has taught Anatomy and Physiology at Athens Technical College and conducts continuing education classes for health professionals.

**Tuesdays, August 20 and 27, 2013**  
10:30-11:45 AM  
River’s Crossing  
2 sessions  
14.00 plus parking

**Analyzing Current Affairs**  
*Robert Grafstein, Lief Carter*

In three monthly meetings this semester, this group will analyze and discuss the deeper dynamics and anticipated consequences of the leading stories in the news. We will address whatever topics seem important and “hot” at the time. Professors Carter and Grafstein will coordinate and lead the discussions, and several members of the UGA political science department have also agreed to lend their expertise if topics in their specialties arise.

Dr. Carter received his A.B. from Harvard College in 1962 and a law degree from Harvard Law School in 1965. He was a Peace Corps volunteer (Bolivia) in 1966-67 and received his Ph.D. from the University of California, Berkeley, in 1972. Dr. Carter taught political science at the University of Georgia until 1995. He twice received UGA’s Josiah Meigs Teaching Award. He became the McHugh Family Distinguished Professor at Colorado College in 1995 and became a professor emeritus at the College in 2008. He is the author of The Limits of Order,
Reason in Law, Contemporary Constitutional Lawmaking, and many other articles, books, and book chapters. His interests include music, cinema, and current affairs.

Robert Grafstein is professor of political science at the University of Georgia. He specializes in political economy, the study of how governments affect economic conditions and how, in turn, people’s economic circumstances affect their political behavior. He has published Institutional Realism (Yale), Choice-Free Rationality (Michigan), A Bridge Too Far? Differences and Commonalities Between the U.S. and China (Rowman & Littlefield; coedited with Fan Wen), and numerous articles in leading journals.

**Tuesdays, September 10, October 15 and November 19, 2013**

---

**Arctic Lands from the OLLI Classroom**  
**Bern Allard, Gilles Allard**

A power point presentation on the geography, history, geology, resources, ecology, biota of Arctic lands visited by the authors.

This includes the northern coast of Norway, Svalbard (Spitsbergen), Iceland, Heimaey, west coast of Greenland, Canadian Arctic islands, Yukon, Alaska, Klondike gold rush.

Gilles Allard, emeritus professor of geology, was born in Quebec. He obtained degrees in geology from the University of Montreal, Queen’s, and Johns Hopkins. In 1956-67, he discovered the Henderson copper-gold mine in the Chibougamau mining district. He taught at UVA for one year, five years in Salvador, Brazil, one year in California, and at UGA since 1965. He discovered a vanadium deposit in 1966. Following retirement in 1991, he lectured on cruise ships. He has done 36 cruises, mostly to the Antarctic and Arctic, and three cruises on private jets. He has received many awards for his teaching and research.

**Tuesdays, December 3 and 10, 2013**

9:00-11:00 AM  
River’s Crossing  
2 sessions  
14.00 plus parking

---

**Animal Issues: The Horse of Course**  
**Jeanne Barsanti**

The horse went quickly from being essential to the economy of the United States to an animal whose purpose was replaced by the bicycle and gasoline engine. The horse survives in the United States today in fewer numbers, mainly for recreational purposes. In other cultures, the horse continues to be a mode of transportation and a food source. This course will briefly review the past role of the horse and its present circumstances in the US. Current controversies such as horse racing, horse showing, horse slaughter for food, and the impact of economic downturns on the horse will be discussed.

Dr. Barsanti is a veterinarian who spent her career as a faculty member in the College of Veterinary Medicine at The University of Georgia. She taught and did research in internal medicine, focusing on urinary diseases of dogs and cats. She retired as a Josiah Meigs Distinguished Teaching Professor. Outside of work, her passion has also been animals, especially horses. Her great-grandfather was a horse trainer and those genes made their way to her.

9:00-10:15 AM  
River’s Crossing  
1 session  
8.00 plus parking
Art for Fifty Years by M. Agner  
*Margaret Agner*

This session will follow Agner’s long art work life. It began in the 60’s and will never end as long as there is breath. Most artists live to work, and, like Mondrian, ‘paint from inner necessity’. Agner’s primary medium, dye on fabric, holds interest due partly to its liquid mind of its own. One can’t wait to see what the previous day’s work will have dried to the next morning. Margaret will show a Power Point of many works covering 35 years or more, including paintings, prints, pastels, drawings, and fiber works (hangings, art to wear, liturgical paraments and vestments.)

Athens artist Margaret Agner received her BFA in painting at LSU in 1974, then learned fabric dyeing and surface design through books, seminars, and workshops. She teaches silk painting workshops and produces silk banners, wearables, and fine art from her basement home studio. She exhibits in several SE galleries; in 2012 showed one-woman at Englewood Art Center, FL, and is scheduled, 2013, as a featured fiber artist at Piedmont Craftsmen Inc, Winston-Salem. www.margaretagnerstudio.com

**Wednesday, October 9, 2013**

**Athens Technical College, An Update**  
*Flora Tydings*

Dr. Tydings will provide an update on Athens Technical College. **You must register for this luncheon program no later than Tuesday, November 12, 2013.**

Dr. Flora Wilhite Tydings began her eleventh year as president of Athens Technical College in August 2013. Community College Times identified Athens Technical College as one of the 25 fastest growing two-year colleges in the United States for the last two years.

Dr. Tydings is a current member of the Athens Rotary Club, HERDI Advisory Committee, the Innovation Crescent Working Committee, and the Georgia BioEducation and Workforce Development Committee. She maintains membership in the Chambers of Commerce in a tencounty region served by Athens Technical College. She was the past chair of the Athens-Clarke County Economic Development Foundation.

Dr. Tydings was recognized in 2008 by the Phi Theta Kappa International Honor Society with the Shirley B. Gordon Award of Distinction. She was the 2009 recipient of the Lee Arrendale Award for Vocational Excellence presented by the Athens Rotary Club and the 2010 recipient of the prestigious Athena Award presented by the Athens Area Chamber of Commerce.

**Band of Brothers**  
*COL (ret) Lawrence H. Saul*

This course will look at the Invasion of France commencing on 6 June 1944, D-Day and the Normandy Campaign. The emphasis and focus will be on the US Army’s contribution to the operation.

This is a two part lecture/study/presentation:

- **Part 1** will focus on the pre-invasion preparation and airborne landings.

- **Part 2** will look at the amphibious landings and the immediate days after 6 June.

Prior to the start of the first class meeting, the instructor will provide a reading/video list.

COL (ret) Saul is a Senior Lecturer at the Naval Postgraduate School, Monterey, California. He served in the US Army for 34 years, with nearly 20 years overseas, mainly in Europe. He is a Battlefield Tour Guide with expertise in many key campaigns and battles, to include D-Day, The Hurtegen Forest, Market-Garden and the Battle of the Bulge. He has a BA in History and a Master in Security Strategy.

Beginning Harmonica
Joe Mauldin

The course starts from the very basics of learning to play the harmonica. Students will be required to bring a 10 hole diatonic harmonica to the first class. These can be purchased at music stores in Athens at a price of $20 to $40. The first topics include history, holding the harmonica properly, lip placement, single notes and chords, playing songs, cupping, hand effects, reading tabs, major scale, embellishment, tone quality, vibrato, and keeping the beat. Near the end, topics involved in advanced playing will be introduced including playing with other musicians, amplification, bending notes, blues expression, chugging, and key positions. Students will be able to play Oh Susannah and more songs after only 2 sessions.

Joe is a retired professor of Poultry Science and has enjoyed his main hobby, playing the harmonica for over 40 years. He plays several styles of harmonica music including blues, bluegrass, gospel, folk, jazz, and classical. He has played in several bands in the Athens area over the last three decades. Joe is an authentic Mississippi bluesman.

Birmingham, 1963: The World is Watching
Glenn T. Eskew

Bull Connor’s use of police dogs and fire hoses to suppress nonviolent protesters including schoolchildren engaged in civil rights demonstrations led by Reverends Fred Shuttlesworth and Martin Luther King in Birmingham, Alabama in the spring of 1963 resulted in national and global outrage that forced President John F. Kennedy and the federal government to ultimately intervene on behalf of racial change that culminated in the ratification of the Civil Rights Act of 1964. This watershed legislation opened up the American system to all regardless of race, religion, gender, sexual preference, or disability, a victory won in the streets of Birmingham in 1963.

While not required, the presenter does recommend But for Birmingham by Glenn T. Eskew.

Glenn Eskew is a faculty member at Georgia State University teaching courses in Southern history. He is a native of Birmingham. He earned his bachelor’s degree at Auburn University and his master’s and doctoral degrees at The University of Georgia. But for Birmingham received the Francis Butler Simkins Prize of the Southern Historical Association. He has also published two edited volumes of essays and a biography of Savannah lyricist Johnny Mercer.

Black Thursday:
The Schweinfurt Mission of WW II
Vince Masters

Schweinfurt! The very name causes survivors of that bloody bombing mission to pale. On October 14, 1943, over 300 German fighter planes were waiting for an armada of more than 200 U.S. 8th Air Force bombers. Sixty B-17s were shot down during the brutal battle.

Dr. Vince Masters, a retired medical doctor, is a World War II survivor of 28 heavy bombardment missions and 200 P-51 Fighter Sorties. He was a Lt. Col. In the Air Force, C.O. 3rd Air Division Weather Scout Force, Deputy Chief Staff, 3rd Air Division 8th Army Air Force. Dr. Masters is a frequent OLLI presenter.

Breaking the Myth of Affordable Housing
Marilyn Appleby

The presentation will discuss the myths surrounding who lives in public and subsidized housing and what some consider the negative impacts of these neighborhoods. Discussion will include funding issues, changes in affordable housing in communities, and a question and answer session to help provide a better understanding of what housing authorities do in cities across the country.

Marilyn Appleby has a degree in journalism from Ohio University. She worked as a police and government reporter for The Record in northern New Jersey before becoming involved with public relations for not-for-profit organizations. Currently, she serves a dual role with the Athens Housing Authority as both the Communications Director and a Property Manager. She has been a resident of Athens for 15 years.

Calculus for Poets
Elliott Gootman

Calculus, invented by Newton and Leibniz in the 17th century, is the mathematical foundation of modern science, probability and economics. Why - because it provides the tools for a precise analysis of changing quantities, and just about everything in life changes. It also lets you compute a lot of really neat stuff. In spite of the technical apparatus needed for precise computations, there are only 4 major concepts that are vital for a general understanding of calculus and its applications, and these are accessible to a high school student.

If you can add, subtract, multiply and divide (with a calculator) and compute the area of a rectangle, this course is for you. We will be exploring many of the concepts with hands-on activities, such as cutting paper, drawing lines, and measuring lengths with a ruler. Doesn’t sound so hard, does it?

Elliott Gootman was a professor of mathematics at the University of Georgia from the fall of 1970 until his retirement in 2004. During the last decade of his career, and in years afterward, he has been involved in the mathematical preparation of pre-service and in-service mathematics teachers, and has conducted workshops in a number of counties in the Northeast Georgia area. He is the author of Calculus, published by Barron’s College Review Series (1997).

Business Negotiations
Alex Patterson

A brief exploration of the negotiation process in business deals with attention to some important skills and techniques and lessons learned over a career spent in negotiation. How do the best negotiators succeed? There will be some illustrative stories (lawyers call these “war stories”) to attempt to spice up the topic a bit.

Alex Patterson is a retired partner of Alston & Bird, LLP, a top 50 law firm, with 10 offices in the U.S. and abroad. Practiced in the Atlanta office 35 years with a concentration on corporate transactions and finance. Degrees from The University of Georgia and Harvard Law School. Listed for corporate, mergers and acquisitions and securities law in The Best Lawyers in America. Married to Janet with 3 adult children.

Cancer Care: An Integrated Approach
Joel Siebentritt

Cancer diagnosis and treatment is complex, expensive and often anxiety producing for the patient and family members. Treatment can include surgery, radiation and/or multiple chemotherapy regimens, any of which can have concurrent side-effects and potential for long-term physical and psycho-social impact. This class will provide an introduction to cancer incidence along with an overview of treatments available locally. Supportive and complementary therapies will be highlighted with discussion of the role these therapies play in an integrated, patient centered approach to care.
Joel Siebentritt is the Manager of Cancer Support Services at Athens Regional’s Loran Smith Center for Cancer Support. He develops and manages programs that assist cancer patients to maximize coping throughout treatment and survivorship. Joel is a graduate of UGA’s Master of Social Work program and has worked in a variety of settings including hospice, a physician clinic, private counseling practice, schools and homeless services. He specializes in adjustment to illness, loss and grief.

Caravaggio –
The Bad Boy (and founder) of Baroque Art
Carolyn Abney

Michelangelo Merisi di Caravaggio astounded everyone who knew him – or his work. Patronized by Cardinals, Popes, and the head of the Knights of Malta, his altarpieces often startled the groups who commissioned them – wouldn’t you be stunned to see the face of Rome’s best known prostitute presented as the Virgin Mary?

He fled Rome after killing a man over an argument about a bet on a tennis game and was pursued by the Pope’s police. But he still managed to paint giant works openly in Naples, Malta, and Sicily. And the only one he signed looks as though his signature is in his own blood. Who said the late 16th century was dull? Come learn more about the man and his work!

Ms. Abney began studying art history at Emory and, many years later, continued at the Courtauld Institute of Art in London. In Florence, she studied at Syracuse University as well as with John T. Spike, a Professor at the Vatican and author of a reference book on Caravaggio.

New Horizons Music
sponsored by the
UGA Community Music School and OLLI

New Horizons Music programs provide entry points to music making for adults, including those with no musical experience at all and those who were active in school music programs, but have been inactive for a long period. Many adults would like an opportunity to learn music in a group setting similar to that offered in schools, but the last entry point in most cases was elementary school. New Horizons Music programs serve that need!

New Beginners welcome anytime!!

NEW HORIZONS BAND
Joyce King, Director

Mondays 12pm
Church at College Station
1225 College Station Road, Athens, GA 30605
$85 for OLLI members

NEW HORIZONS ORCHESTRAS
Laurin Smith, Director

Thursdays 10am - 11am
September 9 – November 15
Church at College Station
1225 College Station Road, Athens, GA 30605
$85 for OLLI members

NEW HORIZONS PIANO
Pete Jutras, Director

Wednesdays, 4 - 6pm
September 9 – November 15
Hugh Hodgson School of Music, Room 504
250 River Road, Athens, GA 30602
$85 for OLLI members

For all questions, please contact the
UGA Community School at ugacms@uga.edu
Carbon, Climate, and Controversy  
*J. Marshall Shepherd*

The course is centered on the 2011 scholarly publication by the instructor and explores the latest scientific thinking on climate change and the plethora of misinformation on the topic.

Dr. J. Marshall Shepherd is a leading international expert in the area of weather, climate, and atmospheric related sciences. He is a Professor in the Department of Geography at the University of Georgia (UGA) and Director of the UGA Atmospheric Sciences Program. Dr. Shepherd is the President of American Meteorological Society (AMS).

China - A Century of Revolution  
*Ian Hardin*

This course will use as its main “text” the great six hour series done on public television in 1997. It covers the period from the early 1900’s until the death of Deng Xiaoping in detail, with fascinating archival footage from throughout the century. There will be introductory material in each session and time for discussion after each segment. China is a subject of great interest for many of us. These videos, Hessler’s book, and the additional material we will look at should enhance your interest, and perhaps fill in gaps you may have about China’s turbulent twentieth century.

Prior to the first day of class, students should read Oracle Bones by Peter Hessler.

Ian Hardin is Georgia Power Professor of Textile Science at the University of Georgia. He has taught and done research on fibers, polymers and textiles for over 41 years at Auburn and Georgia, as well as serving as a department head for 15 years during that time. He was born in Scotland, but came to the U.S. at the age of two, and grew up in Birmingham, Alabama. However, half the family are still in Scotland, and visits back and forth take place most years.

China Business Rising  
*Gary Bertsch, Ken Parris*

China is rising. So too are its businesses. What does this mean for China, the US and world? This course will profile four Chinese companies: a state-owned, military products enterprise; a private telecommunications company; a private medical devices business; and an internet start-up. The instructors have personal experiences with and slides related to each company.

Gary Bertsch is University Professor Emeritus in the UGA School of Public and International Affairs. He was the Founding Director of the Center for International Trade and Security and Co-Founder of the UGA Delta Prize for Global Understanding. He has been elected to a life term membership in the New York-based Council on Foreign Relations. He has worked on a range of international issues in over 40 countries. Most recently, he is the Founder and Chairman of TradeSecure LLC.

Ken Parris is a Co-Founder and President and CEO of TradeSecure, LLC. He has participated for 25 years in developing startup ventures and creating strategic partnerships. A focus of his work has been emerging markets, with extensive work in the commercial sectors in China and the countries of the former Soviet Union. He resides in Athens, GA and is now working with some of China’s leading firms.

Civil Rights Movement in Georgia  
*Barbara McCaskill*

This one-session, 75-minute class will focus on new directions in Civil Rights Studies, and on revisiting what we think we know about the Civil Rights Movement in Georgia. Using examples from her research with undergraduates and graduate students in Albany, Augusta, and Athens for the Civil Rights Digital Library, Professor McCaskill will discuss activism in different regions of the state; the involvement of women, students, and non-black groups; and the extension of civil rights activism beyond the “classic” years of the 1960s. The session will conclude with a brief writing exercise on interpreting an artifact or document from the Movement.
Barbara McCaskill is Associate Professor of English at UGA. She was 2012 Fulbright Visiting Research Chair in Society and Culture at Dalhousie University, Halifax, Nova Scotia. She is revising a book, 1000 Miles for Freedom: William and Ellen Craft in Transatlantic Literature and Culture. She co-directs the Civil Rights Digital Library, an award-winning project featuring film from the era. She has co-edited Post-Bellum, Pre-Harlem: African American Literature and Culture, 1877-1919 and Multicultural Literature and Literacies.

Climate Connections to Marine Ecosystems – from the Amazon to Antarctica
Patricia L. Yager

Most of us are familiar with global climate patterns and how the climate we experience is related to where we live. Most also know that those familiar patterns are changing. This course will discuss what role the ocean plays in global climate, particularly when it comes to understanding how the ocean biosphere is helping to keep our planet cooler than it might otherwise be. The question is whether the ocean can continue to play this role under increasing pressure from human activities. We will look at the effects of these pressures on marine ecosystems from the tropics to the poles.

Dr. Yager is an Associate Professor of Marine Sciences at the University of Georgia. She has traveled the world, from the Antarctic to the Amazon River to the Arctic Ocean, to investigate the impact of climate changes on marine ecosystem. She is also the Director of the Georgia Initiative for Climate and Society (http://climateandsociety.uga.edu) with a mission to foster a community of scholars at UGA that will investigate, integrate, and educate about climate and its relationship to society.

Confucian Culture in Modern Korea
Hyangsoon Yi

Confucianism has served as a backbone of Korean culture since the Choson Dynasty (1392-1910). Although industrialization, westernization, and urbanization have posed serious challenges to the traditional Confucian teachings, their rich legacies are still widely discerned in modern Korean society. This course will introduce basic tenets of Confucianism, their development during the Choson period, and their influence on the digitalized and nomadic contemporary lifestyle of many Koreans today. Special attention will be paid to both changing views on and enduring forces of the Confucian values on family lineage, moral education, and communal harmony.

Hyangsoon Yi is Professor of Comparative Literature and Director of UGA Korean Language and Literature. She received her Ph.D. in English from Pennsylvania State University. Her book Buddhist Nuns and Korean Literature received the Outstanding Scholarly Book of 2009 Award from the National Academy of Sciences, Korea. She co-authored Welcome to Korea! and published extensively on Korean Buddhism, film, and literature.

Cooking Class – The Healthy Gourmet

Tim Dondero

A complete meal will be prepared with commentary throughout on methods and techniques used. Wine pairings will also be discussed and samples given to enjoy with the food. Copies of the recipes and wine pairings will be given to the participants.

The cooking demonstration will be held at The Healthy Gourmet, 1087 Baxter Street, Athens GA 30606. The cost of the course includes a supplies fee.

Tim Dondero, Executive Chef at Donderos’ Kitchen on N. Milledge Avenue in Athens, has taught international cooking at the Healthy Gourmet for the past year. He taught at Evening at Emory in Atlanta for over ten years and for a number of years taught at various other cooking establishments in Atlanta and Athens. His “day job” is as an international medical researcher with the Centers for Disease Control and Prevention in Atlanta. He is an enthusiastic chef who, while working in research, lived as well as cooked for nearly eight years in Southeast Asia, for nearly three years in Africa, and has travelled extensively in his work. His focus is exciting international food that is as authentic as is possible with available ingredients and cooking equipment.

Critical Reading: Short Stories

Alexis Winger

This course will consist of critical readings in a wide gamut of short stories. There will be reading/discussion of two stories each session. All viewpoints are welcomed.

Please be aware that there are two opportunities to join this class. The classes will cover different stories.

The course text will be The Norton Anthology of Short Fiction, Sixth Edition, edited by R.V. Cassill & Richard Bausch. It is available in paperback.

Alexis Winger attended Idaho State University, BYU, and Tennessee Tech University. She taught composition and grammar in UGA’s Division of Academic Enhancement for 29 years and most recently served as coordinator of the Writing Component of the Division’s Learning Center. She has given numerous presentations on teaching composition and grammar. After retiring from UGA in 2007, she has become very active in OLLI.

Cybersecurity - You’re Naked: Online Privacy and Protection of Your Digital Assets

Chuck Murphy

Every week, hackers attack websites and steal massive amounts of consumer data. Daily, “phishing” emails arrive, trying to hijack your bank accounts. Now your hard drive is starting to make funny noises . . . . Is the digital privacy and security situation really as bad as it seems? No! It is much, much worse.
This course will review the threats to your privacy and security in the Internet age. By the end of the course, you’ll have a set of practical, inexpensive tips so you can lock down your personal information, protect yourself from scammers, and minimize your exposure to digital catastrophes.

Chuck Murphy is a retired software professional and veteran OLLI@UGA presenter. He spent the last 15 years of his working career developing secure and robust e-commerce systems on the web. He has never been hacked.

**Diagnosis: Nature Deficiency**
*John Fischer*

We spend 90% of our time indoors and have a poor understanding of the wildlife with which we share our backyards, golf courses, and highways. A better understanding of nature would come in handy because more people now live in close proximity to wildlife than ever. This course describes how we pushed species to the brink of extinction and then brought them back in higher numbers than we can tolerate, and how we’ve handicapped ourselves in dealing with this situation by becoming disconnected from nature, knowing little more about it than what we’ve picked up from films and television.

John Fischer, DVM, PhD, is a Professor of Population Health and Director of the Southeastern Cooperative Wildlife Disease Study at UGA’s College of Veterinary Medicine. As Director, he works with the wildlife management agencies of 19 states, the USDA, and the U.S. Department of the Interior to determine the significance of diseases and parasites in wildlife populations and to delineate the role of wildlife in the epidemiology of human and domestic animal diseases.

**Diderot’s Encyclopédie**
*Greg de Rocher, Jennifer Palmer*

Monument of the Enlightenment, the Britannica of the 20th century, and the Wikipedia of today. The Hargrett Rare Book and Manuscript Collection has the incredible good fortune of possessing an 18th-century edition of Denis Diderot’s *Encyclopédie*. This monumental work includes 21 volumes with over 70,000 articles (from asparagus to zodiac) and 11 volumes of plates illustrating many of the articles. Its purpose, according to Diderot, was to “change the common way of thinking” through the expansion of knowledge and the fostering of critical thought. It will be the center-piece of Jennifer Palmer’s presentation which will take place at the Hargrett, followed by a reception honoring Denis Diderot on his 300th birthday, and celebrating in due fashion along with France the transfer of his remains to the Panthéon in Paris.

*The course fee includes an after-class reception.*

Dr. de Rocher studied at the University of Poitiers in France (1964-65), received his undergraduate degree from the University of Detroit (1966), his MA (1967), and Ph.D. (1972) from the University of Michigan in Ann Arbor. He taught at the University of Alabama for 31 years. He is the author of critical studies, translations, articles, reviews, and presentations at colloquia in the United States and in France. He and his wife Francoise have been residents of Athens and members of OLLI@UGA since April 2010.

Jennifer Palmer is an assistant professor of history at the University of Georgia. She holds degrees from the universities of Virginia, Cambridge, and Michigan. Her research focuses on how slavery and colonialism shaped the family in eighteenth-century France.

Digital Photography Basics: Making and Sharing Digital Photos
Chuck Murphy

Would you like to make better pictures with your digital camera? Would you like to share your photos with friends and family? Then this hands-on workshop is for you!

You’ll learn how to select the best camera for your budget and needs and how to use it to take better pictures. You will also learn how to use free software to enhance your pictures and then share them through prints, email, web albums and Facebook.

Prerequisites: Basic computer skills and access to a Windows or Mac computer. Class size is limited to 10 to ensure students receive adequate individual attention. Both sessions listed below are identical.

Chuck Murphy is a retired software designer. He has been an avid photographer for over four decades and started doing digital photography in 1999. He has taught nine previous photography courses for OLLI and leads our PictureThis! digital photography club. His photo expeditions have taken him on trips around the world and to all seven continents. To see some of Chuck’s work, check out his portfolio at www.boywithcamera.com.

Directing for the Stage: Issues and Challenges
Freda Scott Giles

How does a director take a script and guide a production team and performing artists to a full production? Dr. Giles’ lecture will cover the basic principles that guide a director’s creative process, using examples from productions she has directed to illustrate her main points.

Dr. Giles earned her PhD at the City University of New York, is jointly appointed in the Institute for African American Studies and the Department of Theatre and Film Studies, and has been a member of the UGA faculty since 1995. Her special research area is theatre and drama of the Harlem Renaissance period and her special performance area is directing for the stage.

Easy Relaxing Yoga
*Elizabeth Alder, N.NCM, C.CY*

Want to be more flexible, relaxed and happier? Join this go-at-your-own-pace class and learn to breathe, stretch and relax. Health benefiting postures, stretching and relaxation methods are taught by experienced Yoga instructor Elizabeth Alder. Elizabeth has enjoyed teaching Easy Yoga at the YWCO for 21 years and is now teaching Easy Chair Yoga at Morningside Assisted Living of Athens.

Elizabeth Alder is a 35 year veteran of Hatha Yoga and the Healing Arts. In 1977 she received her Instructor’s Certification from Dr. Mishra Ramamurti at the World Yoga University in California. Since that time, she has received certifications in Therapeutic Massage, Healing Touch, Colorenergetics, Geriatric Massage and Ayurvedic Face Lift Massage. Her studies have
taken her as far as southern India, where she taught Hatha Yoga in Kerala; and in 2001 she assisted Dr. Robert Hasinger at the International Colour Congress in Italy.

**Eat Less, Exercise More, Love Longer**  
*Bill Flatt*

Obesity is a major health risk problem America and is becoming more and more prevalent. Type 2 diabetes is one of the risks and is not only increasingly prevalent in older obese adults, but even in teenagers and middle school age children. What can be done to prevent obesity? Reducing caloric intake and increasing physical activity (energy expenditure) are the recommended solution. Dr. Flatt will discuss his personal experience in losing over 50 pounds of body fat and maintaining the lower body weight for over two decades. He will describe the importance of physical activity, including strength training in preventing age-related loss of muscle (sarcopenia).

Dr. William P. (Bill) Flatt, D.W. Brooks Distinguished Professor Emeritus, has been a UGA faculty member since 1969. He served as dean and coordinator of the College of Agricultural and Environmental Sciences from 1981-1994, and previously as director of the Georgia Agricultural Experiment Stations (1970-1981). He received his Ph.D. in animal nutrition, biochemistry, and physiology from Cornell University in 1955, and he was head of the USDA Energy Metabolism Laboratory in Beltsville, Md., from 1956-1969. In 1994 he began teaching human nutrition in the Foods and Nutrition Department and animal nutrition in the Department of Animal and Dairy Science. He has received many national awards for his energy metabolism research, and was recently named a Fellow of the American Society for Nutrition for “the visionary leadership he demonstrated during and after his service as research leader of the energy metabolism unit at the U.S. Department of Agriculture and the more recent penetrating studies of energy balance and obesity and leptin actions he and his colleagues have reported.”

---

**Emergence and Evolution**  
*Howard Page*

While the evolutionary process is well understood, there are many studies arguing that evolution does not lead to the hierarchical structure we see in our universe. The emergent process is the companion to evolution which generates new ways of interaction; the building blocks evolution uses to “experiment” with new designs. We’ll discuss emergence in general and specific examples including good/bad/evil, technology, religion and economics.

Mr. Page has a BS in Math and Physics from Guilford College and a MA in Applied Math from the University of Maryland. He has spent 30 years studying complex systems, focusing on how the universe uses simple rules to build up a hierarchy. He has taught OLLI courses at Emory for the past 4 years and achieved consistently positive evaluations.

**Excel: Tips & Tidbits**  
*Zu Reuter*

This course is designed for members who have a good understanding of the fundamentals of Excel and are already comfortable working with spreadsheets.

It will be an hour full of tips and tidbits that should prove to be useful in saving you some time and energy and give you the confidence to try new ways of working with your data.

This class is not designed for the novice Excel user.

Zu, her husband and two dogs traded Desert for Dixie when they moved from Phoenix, Arizona to Athens, Georgia in 2010. She has over 19 years of training and administrative experience which she brought to OLLI@UGA in June 2010. She is thrilled to have found an organization that encompasses in one fell swoop what she has sought her whole life... a way to learn AND have fun while doing it.

Exuberance of Meaning: The Art Patronage of Catherine the Great (1762-1796)
Asen Kirin

This course is associated with an exhibition, which will take place at GMOA in the fall of 2013. The title “Exuberance of Meaning” refers to a crucial characteristic that distinguishes Catherine the Great’s endeavors in the arts. Her innumerable projects - whether a new city, a church, a liturgical vessel, or a dinner set - were conceived in a manner allowing for multiple yet complementary interpretations covering a wide spectrum of meanings. This multiplicity of meaning is the direct outcome of the empress’s wish to assert her empire’s status as a key participant in the project of the Enlightenment whose aim was to reform society and advance knowledge.

While not required, the presenter recommends Catherine the Great: Portrait of a Woman by Robert K. Massie.

Asen Kirin teaches history of Late Antique, Byzantine and Russian art and architecture. His original training, which was in Slavonic languages and literature, took place in Sofia, Bulgaria and Moscow, Russia. He acquired a Master’s degree in Art History from Vanderbilt University and a Ph.D. from Princeton University. He joined the faculty at the School of Art at UGA after spending a year at Harvard University’s Dumbarton Oaks Foundation.

Eye: Diseases affecting the eyes of the aging population
W. (Gus) Sams, M.M.D

As the population ages, the prevalence of several eye conditions become more prevalent; these include cataracts, glaucoma, and age related macular degeneration (ARMD). The pathogenesis, natural progression, treatment, and ongoing research will be discussed. Topics of discussion will include advances in intraocular lens technology and surgical devices in the use of cataract surgery; types of glaucoma and their various treatments; and the use of anti-VEGF (vascular endothelial growth factor) agent in the treatment of ARMD.

Dr. Sams, an Athens native, graduated as Valedictorian of Presbyterian College with a B.S. in Biology. After receiving his medical degree from the Medical College of Georgia where he graduated with highest honors in Alpha Omega Alpha, he completed an internship at Baptist Hospital System in Birmingham, Alabama. He completed a residency in ophthalmology from the University of Virginia at Charlottesville where he was chief resident during his final year. Dr. Sams became a partner of the practice in December, 2009, and he is certified by the American Board of Ophthalmology.

Helene Hendon

Join this exploration in physical and mental balance. Move through gentle mindful poses, accessible to all, geared toward improving balance. We will also explore mindfulness as an aid in finding our inner balance point, our innate inner peace. Leave with some experiences of both the outward and inner practices as well as some ideas to continue developing balance at home!

Helene is a certified and registered Yoga Instructor with a Masters in Education. She loves teaching and is excited to share the benefits she has reaped in her own life as well as the experiences and knowledge she has accrued through 11 teacher training courses and numerous workshops. Helene loves to laugh. She has always looked for the bright side of life and was very excited to find Laugh-A-Yoga. In addition to multiple other yoga certifications, Helene is a certified Laugh-A-Yoga instructor who has been teaching Laugh-A-Yoga for the past five years.

Food Safety: A Glimpse at the Future
Michael Doyle

This course will address many of the microbiological food safety issues facing U.S. consumers in both the near-and long-term. Concerns include fresh-cut produce, food ingredients, food imports, economically-motivated food adulteration, antimicrobial resistant microbes, new food production technologies, blogs and misleading information and future food production trends.

Dr. Michael Doyle is a Regents Professor of Food Microbiology and Director of the Center for Food Safety at UGA. He is an active researcher in the area of the microbiological safety of foods and serves as a scientific advisor to many groups, including the WHO, Institute of Medicine, National Academy of Science-National Research Council, FDA, USDA, U.S. DOD and U.S. EPA. He is a Fellow of the American Academy of Microbiology, the American Association for the Advancement of Science, the International Association for Food Protection and the Institute of Food Technologists, and is a member of the National Academies of Medicine.

Round Up Donation

To help keep our costs affordable for all OLLI@UGA members – and among the lowest of all OLLI programs in the country – you may wish to make a “Round Up” donation. You will thereby become a donor for the current fiscal year. When you register for courses, you will have an opportunity to donate—either online or on paper.

Thank you for your support.
Four Elements of Music and Their Emotional Impact
Roy Martin

The purpose of this course is to help non-musicians understand the basic elements of music and their psychological significance. Put another way, why are we as human beings attracted to music. This will be a four session course with each session devoted to each of four elements that seem to have particular emotional meaning: rhythm, melody, chord structure, performance. Examples will be presented in class from all genres of music: folk, rock, jazz, and classical (Gregorian chant to Hip Hop).

Dr. Martin began his musical instruction at age 5 on the piano. After several false starts on various instruments, he began playing the violin at age 9 and continues to this day. He attended the Eastman School of Music but left before graduation to pursue a bachelor’s degree in psychology. He has played with several community orchestras and the Athens Symphony since 1984, serving as concertmaster for most of that time and soloists on several occasions. He recently retired as a Professor of Educational Psychology.

French on Friday 2
Bénédicte Milward

We will continue to work on grammar and conversation in order to be able to communicate with your hosts when you go to Lyon in June 2014.

This class is for those who attended French on Friday 1 and are interested in continuing. NO NEW STUDENTS.

Bénédicte Milward was born in Paris where she lived until the age of 24. She spent 2 years in Florida before returning to France where she and her family lived in Lyon for 20 years. She has been in Athens since 2002 and has a degree in Occupational Therapy and a Master degree in Religious Education. Bénédicte worked for 20 years as a Director of Religious Education in the diocese of Lyon (France) and then Atlanta. She is married, has four children and loves reading, singing, crafting, hiking and travelling.

French Tales of the Holy Grail
Catherine Jones

The Holy Grail first appeared in a 12th-century romance by Chrétien de Troyes, one of the most celebrated authors of the French Middle Ages. The course will introduce the audience to Chrétien’s text and subsequent French versions of the Grail legend, in the medieval and the modern periods.

Catherine Jones is a Josiah Meigs Distinguished Professor of French. She specializes in the literature of the French Middle Ages. Publications include two books on the French epic tradition and articles on epic, romance, allegory, and the modern reception of medieval legends.

Geologic Aspects of Two Man-Made Catastrophes
Mark Rich

The Johnstown, PA (1889) and San Francisquito Canyon, CA (1928) floods, involving huge losses of life and property, resulted from dam failures, in large part related to geologic and hydrologic factors not adequately addressed in choice of dam sites, design, and construction. Both dams were large water storage reservoirs.

Dr. Rich is Professor Emeritus of Geology at UGA. He has extensive experience in regional geology, glacial geology, environmental geology, and marine science. He has worked as a consultant in environmental assessment and remediation of commercial properties. His travels have taken him to all of the seven continents and to Greenland and Iceland. He received his degrees from UCLA, University of Southern California, and University of Illinois at Urbana-Champaign. He is a Senior Fellow in the Geological Society of America and a Registered Professional Geologist in the State of Georgia.

Geological Hazards:
Living with a Restless Planet
R. David Dallmeyer

Recent geological hazard events have brought into sharp focus the dynamic nature of our planet. These include tsunamis in Sumatra (2004) and Japan (2011), the hurricane devastation of Katrina (2005) and Sandy (2012) and the great loss of life in the 2010 Haitian earthquake.

Geologic processes have long constituted potential hazards, however they do not become significant risks unless humans get in the way. Such risks occur throughout the southeastern United States as evidenced by the widespread earthquake destruction of Charleston in 1886.

This course will address a variety of potential geological hazards including: earthquakes, tsunami, volcanic eruptions, hurricanes, river flooding, coastal erosion, landslides, soil failure and ground collapse. Each hazard with be evaluated systematically, with discussion of: the nature of the geologic processes producing the hazard, a description of the risks involved, potential prediction of the hazards, possibility of risk prevention and methods of hazard mitigation.

Geology of Great Human Endeavors:
The Construction of the Panama Canal
Mark Rich

August 15 of this year will mark the 99th anniversary of the official opening of the Panama Canal. This course will cover the following main topics related to construction of the canal: (1) historical background; (2) geographic and geological settings; (3) French venture prior to U.S. takeover of construction; (4) impact of malaria and yellow fever during the early phases of the project; (5) construction and completion; (6) operation; (7) official transfer to Republic of Panama; (8) later developments.

Mark Rich is Professor Emeritus of Geology at UGA. He is a Senior Fellow in the Geological Society of America and a Registered Professional Geologist in the State of Georgia. Dr. Rich has extensive experience in regional geology, sedimentology and marine science. He has worked as a consultant in environmental assessment and characterization of commercial properties. He worked as a geologist for the California Division of Water Resources during the Division’s site planning for a portion of the State’s Aqueduct through the Tehachapi Mountains.

Georgia Museum of Natural History
Bud Freeman

The Official State Museum of Natural History is an important repository of objects, artifacts, and specimens relating to the natural history of Georgia and the Southeast. We will carpool to the museum’s Gallery on the UGA campus and get a guided tour by Dr. Bud Freeman, Director. A recent survey among the nation’s universities maintaining museums of natural history indicated that the Georgia Museum of Natural History collections rank 9th in size.

Visitors will receive a tour of collections housed in the Natural History Building on Campus and view the gallery. Expect to see an amazing collection of Insects, Birds and Mammals and the Zooarchaeology collection, as well as displays in the Gallery.

Bud Freeman serves as Director of the Georgia Museum of Natural History and also holds a faculty appointment in the Odum School of Ecology. The Museum is located on the University of Georgia Campus and is a unit of the Franklin College of Arts and Sciences. Dr. Freeman has over 30 years’ experience conducting stream surveys in the Southeastern United States with efforts focusing on measuring, describing and preserving native species diversity and animal abundance in southeastern streams and rivers.

Giving Poems a Chance
James Kissane

This short course (four two-hour classes) in reading and enjoying poetry will focus on the discussion of a wide selection of short poems as illustrations of some of the things that happen in poems and that matter in our understanding and enjoyment of them.

The text for this course consists of handouts that include poems for discussion and the presenter’s introductory comments aimed at initiating class consideration of such matters as “What makes a poem?” “The language(s) of poetry,” “Patterns, forms, and structures,” “The acts of interpreting and evaluating a poem.”

Dr. Kissane holds a Ph.D. in English from The Johns Hopkins University and is Professor Emeritus of Literature at Grinnell College, where he taught for 38 years. His publications include books, articles, and reviews on a variety of mostly 19th- and 20th-century topics and writers. In past semesters he has presented several different courses for LIR/OLLI.

IMPORTANT INFORMATION
Regarding your River’s Crossing One-Day Parking Tags

Per instruction from UGA’s Parking Services team, your temporary parking tag must indicate the Year, the Month and the Day that you are using your pass. Please circle the appropriate options prior to or upon arrival.

Additionally, a state issued Disability placard does not exclude you from needing a Temporary Parking Tag for River’s Crossing. You will need to display both when parking in the lot.

And finally, if you make it to class and find yourself in need of parking tags, you may purchase them from the OLLI office located behind the first floor reception area.

It’s Your Choice
Purchase tag through OLLI@UGA: $2
Purchase tag in the Visitor Parking lot: $5
Failure to purchase or display tag: $40 fine from UGA
Gneiss Gardens
Hugh and Carolyn Nourse

The natural history of granitic outcrops of Georgia’s Piedmont will be discussed. A slide show about our local Rock and Shoals Outcrop Natural Area will provide views of the outcrop in every season of the year.

There will be a field trip to Rock and Shoals Outcrop Natural Area on Tuesday, September 17, 8:30 – 10:30 AM.

After Hugh retired as professor of real estate from Terry College, he and Carol became botanical photographers. Together they have written and photographed for three books: Wildflowers of Georgia, The State Botanical Garden of Georgia, and Favorite Wildflower Walks in Georgia. Contributed many photographs to Linda Chafin’s “Guide to the Rare Plants of Georgia,” and were principal photographers for “The Natural Communities of Georgia,” by Leslie Edward, Kay Kirkman, and Jon Ambrose. All these named books published by UGA Press.

God versus Science –
A Short Odyssey through Three Books
Dale Goodhue

This course uses three books (Dawkins’ The God Delusion, McGrath’s The Dawkins’ Delusion and Miller’s Finding Darwin’s God) with very different points of view to explore questions about religion, the existence of God, and the relationship between belief in God and belief in science. The instructor will describe each of the books and his reaction to them on a first reading, but follow that with what he found after a second reading -- very changed reactions to each. Lest anyone be uncertain about the class theme, it has more to do with how atheists and believers should deal with one other than whether to be an atheist or a believer. Discussion will follow.

Professor Dale Goodhue teaches Management Information Systems at UGA. With no formal training in religion or philosophy, his only qualifications for teaching this course are that he is a thoughtful person. Raised Presbyterian, he “converted” to atheism in about the tenth grade. Always pretty quiet about his beliefs, he changed that after the three books presented in this course made him think again.

Great Books Selections
William Loughner

We read short items and selections from some of the world’s best fiction and non-fiction. As well as interesting insights, we strive for personal growth and social engagement. This year we will read the selections in the Great Books Foundation anthology Great Conversations 3. (http://tinyurl.com/OlliGB3)

For questions and information about the first reading, call Bill Loughner at 706-543-3812, bill@loughner.com.

Bill Loughner is a retired science librarian who graduated from Wayne State University and has an MA in math from UGA. He has been involved with Great Books for four years. He’s enthusiastic and enjoys good discussions about interesting and provocative topics. He thinks you will too.

Growing Shiitake Mushrooms

Peter Hartel

Why pay $14.00 per lb. for shiitake mushrooms when you can grow your own? Shiitake (SHEE-tah-key) mushrooms, the most widely grown mushroom in Japan, have become increasingly popular in the United States because of their meaty flavor and medicinal properties. In the first part of the class, we’ll cover mushroom terminology and discuss shiitake log production. In the second part of the class, we’ll use this knowledge to inoculate logs with shiitake spawn. Each student will take home her or his own 48” inoculated log. (Since a 9 to 10” shiitake log is currently available on Amazon for $22.95, this OLLI course pays you!)

Location information will be sent to registered participants. The course fee includes a materials fee.

Peter Hartel was Professor of Soil Microbiology and Georgia Power Professor of Environmental Ethics at the University of Georgia. He taught courses in soil microbiology, environmental ethics, and research methods. In 2006, he helped start a Certificate Program in Organic Agriculture and taught the introductory course in organic farming. Shiitake production was part of this introductory course. Since his retirement in 2011, he has been growing shiitake (and other edible mushrooms) at the UGaRden.

Health Care Strategies

Debbie Furbish

Debbie has compiled an easy to understand presentation for consumers on how to navigate the health care system. She is involved in community outreach to raise awareness on how to be an informed health care consumer. After leaving this session, you will be able to find the right answers and strategies that will serve both your immediate and long term needs.

You must register for this luncheon program no later than Tuesday, October 29, 2013.

Debbie began her career in the US Army at the Pentagon and NATO. After her military career she assumed many management roles in nursing, some to include Director of Nursing in a nursing home, Assistant Director of Nursing in an Atlanta Hospital and a 12 year role at St. Joseph’s Hospital in Atlanta. Currently she is the Executive Director at Compassionate Care Hospice here in Athens.

Hears to the Ear!
Robin B. Hardin

This course will cover the anatomy, physiology and basic science review of the ear. The course will review information concerning otologic symptoms that include: hearing loss, tinnitus, vertigo, imbalance and aural fullness. This will be an interactive course with focus on understanding the function of the ear in everyday life and how to address any ear symptoms. Participants will leave with information on how to appropriately address the impact of otologic symptoms in daily life. Specifically, medical management, hearing aids, tinnitus treatments and communication strategies will be reviewed in detail.

Robin Hardin, M.A., LIC-A, FAAA, owner of Athens Oconee Audiology has over 30 years’ experience in audiology. During her career she has worked at the highly recognized Veterans Administration Medical Center in Atlanta, the University of Georgia Speech and Hearing Clinic and the Atlanta Ear Clinic, a neurotology practice. In May 2009, Hardin was one of 25 audiologists in the world to be invited to participate in the Ida Institute in Denmark.

Heart and Blood Vessel Health: what changes as you age and how your lifestyle choices affect it
Alice Harris

As you age, your heart and blood vessel anatomy and function change. Some of these changes are due to your genetic makeup, but many are strongly affected by your lifestyle choices such as diet and exercise. This course will give a brief overview of heart and blood vessel anatomy and physiology. We will then discuss the consequences of aging on these structures. Finally, we will discuss how your lifestyle choices affect these changes and suggest what you might do to improve your heart and vessel health.

Dr. Harris is a retired board certified Family Practice physician. After four years as an Occupational Therapist, she earned her medical degree at the University of Minnesota. She worked in primary care medicine in Minnesota, then here in Athens. Following retirement, she taught Human Physiology and Anatomy at Athens Technical College. Currently, she volunteers at Mercy Medical Center and as a Master Gardener around Athens. Her true passions are preventive medicine and taking in stranded dogs.

How a Career of Service Came to Me
Spencer Frye

Spencer will reveal how he was led to his chosen careers with a series of vignettes, some unusual - from childhood in Europe as son of a US officer later turned Presbyterian minister to a state representative and Habitat for Humanity. He will recount tales of experiences in the poorest country in the Western Hemisphere, then through his professional career to conclude by sharing his learning curve as representative of Athens in Atlanta. He encourages a question/answer period to explore matters of interest further, whether political or economic or social.

You must register for this luncheon program no later than Tuesday, October 8, 2013.

After coming to UGA 27 years ago, Spencer Frye has been a small business owner, construction manager, non-profit executive and now a member of the Georgia House of Representatives. He taught in Haiti, helped export ambulances overseas and co-founded Envirotech, which began by recycling oil and now operates globally. He is Executive Director of Athens Habitat For Humanity.

How to Do Only What You Need to Do on Your Cell Phone and Laptop

Gabriel Schmidt

Most of what anybody could do on any modern apparatus of technology is far more than what they really need to do. Oftentimes instruction requires learning more than you want (TMII) and makes learning to do what you need to do discouraging. Here everybody will bring their cell phone and/or laptop (Android, iPhone, Windows, Mac) and we will form groups and do a combination of self-help (most will know something somebody else doesn’t) while the instructor rotates through the groups and/or provides group instruction.

Gabriel Schmidt is a consummate educator and trainer, with formal education and degrees in Liberal Studies, Philosophy, Education and Vocational Rehabilitation. The overall goal of his work is to foster greater self-understanding and personal development in others; while his techniques and style are principally therapeutic in nature. Gabriel is well traveled and bilingual in Spanish. Also assisting others in finding their place with new technologies, in order to enjoy and participate in a modicum of what youth takes for granted is an important contribution to his over 50 peers.

Huck Finn and the Concept of Honor

Mark Freeman

Honor, as it was conceived by various groups and individuals in the antebellum South, plays an important part in Mark Twain’s masterpiece.

Prior to the first class meeting, class members MUST read the book (any edition) and bring a copy to class. Please reread it if you’ve already read it as everyone should be prepared to discuss honor as conceived by Tom Sawyer, Jim, Miss Watson, the Grangerfords, Colonel Sherburn, and others, including of course Huck.

Mark Freeman has loved Mark Twain since he learned, at the age of 8, that they had the same first name. (He found out about Sam later.) He, Freeman, has taught every level from fifth grade to adults, and subjects ranging from environment through gardening to literature.

Investing in Real Estate  
Jim Paine

This course will give an overview of and resources on how to invest in income producing real estate. The basic “how-to’s” of attending tax sales, buying foreclosures, maintaining properties, writing leases and landlord/tenant relationships will be discussed. A detailed overview of the Athens-area real estate market will be included. There will be time to ask instructors questions. Co-taught by Daniel Bennett.

A native Athenian, Jim is a graduate of Clarke Central High School and UGA. He served over twenty years in the US Air Force as a pilot and logistical support officer. He also obtained his real estate license and purchased his first rental property in 1988. He currently owns over 10 rental units and manages over 25 rental units in the Athens area. He has a special interest in foreclosure and tax sale property.

IRS Misconduct: What It Means For You  
Camila Watson

The IRS has far greater powers than any other bill collector. It can take your wages, your bank account, and put a lien against your house. While there are supposed to be procedural safeguards in place to protect taxpayers, sometimes the IRS does not abide by the rules. At other times, things beyond your control may happen that result in your being the subject of an IRS collection action. What, if anything, can you do?

Camilla Watson is a professor of law at UGA. She graduated from Converse College, the University of Mississippi School of Law and New York University. She specializes in federal taxation and has written and lectured extensively in the area. She sub-specializes in the area of federal tax procedure and she occasionally consults on individual cases.

Leon Theremin: Inventor of the First Electronic Musical Instrument
Lisa Fusillo

Leon Theremin, the inventor of the first electronic musical instrument, made contributions to music and dance that were tightly woven into his life of scientific invention, espionage, international notoriety, and extraordinary genius. A Russian physicist researching electricity during the early 1900s, Theremin created his “etherphone”, a musical instrument using ether (radio) waves and later developed the “terpsitone” or “ether wave dance stage”. His search for dancers to perform on the terpsitone led Theremin to collaborate with the American Negro Ballet. Decades ahead of his time, Theremin’s explorations in electronic music and dance were stifled by racism and pre-WWII political intrigue.

Lisa A. Fusillo began her professional ballet training in Washington, D.C. and later studied in New York, London, Russia and Denmark. She holds the Professional Teaching Diploma from the Royal Ballet School in London and she has choreographed internationally. Dr. Fusillo is a Fulbright Scholar and has received four National Endowment for the Arts grants. Her current research projects include Stravinsky-Nijinsky’s The Rite of Spring, Leon Theremin’s terpsitone, and a biography of the ballerina Nini Theilade.

Leonard Cohen: Poet
Elizabeth Kraft

In this three-session course, we will discuss the poetry of Leonard Cohen chronologically with emphasis on theme, form, image, and symbol. The first class will concentrate on poems/songs written in the 60s and 70s, the second on poems/songs written in the 80s and 90s, and the third on poems/songs written since 2000.

Professor Kraft has been a Professor of English at the University of Georgia since 1987. She is a specialist in the literature of eighteenth-century England. Since 2007, she has also been teaching a one-hour seminar on the poetry of Canadian singer-songwriter Leonard Cohen.

Lumière and the Birth of Cinema
Richard Neupert

In 1895, the young Lumière Brothers in France projected the first motion pictures. This course outlines the contributions of Louis Lumière who launched some of the most striking movies the world has ever known. Some art critics even argued that Louis Lumière was the cinema’s equivalent to a great impressionist painter. We will watch and critique some of these beautiful 50-second movies made in Europe, Africa, North America and Asia. Lumière movies truly “showed the world to the world.”

Richard Neupert (PhD, Wisconsin) is the Wheatley Professor of the Arts and a Josiah Meigs Distinguished Teaching Professor. Author of The End, History of the French New Wave and A History of French Animation, his new book project is John Lasseter and the Rise of Pixar Style (U of Illinois P). He is also on the board of the Ciné movie theater.

Mercury in the Environment
Nicholas Loux

Mercury is a global contaminant of concern responsible for fish consumption advisories present in more than 40 states in the US. In addition, these consumption advisories are often present in areas that are generally considered to be our most prized and pristine recreation areas.

Why are these advisories so pervasive? What is it about mercury that leads to these problems? Can anything be done about these problems? These and other questions will be the topic of this presentation.

Dr. Loux retired after 24 years as a federal environmental research chemist. During his career he was author/coauthor on 40+ technical publications, 40+ technical presentations and served as a technical expert at more than 20 national/international technical committee meetings. Dr. Loux also is an author on eight scientific publications concerning the environmental behavior of mercury.

Metamorphosis of LIR into OLLI
Virginia Macagnoni

What your grandchildren will never know about OLLI. This course highlights reflections of a Bayou Babe who provides glimpses of relatedness.

Fractile One - Setting: Kinard, Florida

Fractile Two - Setting: Bogata, Colombia

Fractile Three - Setting: Athens, GA The birth of LIR or “Where We Were”

Fractile Four - Setting: Athens, GA The miraculous expansion of LIR and its metamorphosis into OLLI

Fractile Five - Curriculum as Invitation to Nurture ALLWAYS!

Virginia Macagnoni, Professor Emerita in Lifelong Education, Administration & Policy, was a founding member of LIR. A teacher and scholar, Virginia received a BFA from H. Sophie Newcomb/Tulane University and an M.A. and Ph.D. from Florida State. Specializing in curriculum & supervision theory and development, she stressed creativity, lifelong learning, “energizing classrooms,” and the concept of education as a spiritual journey. Virginia taught at the University of Alabama, Florida State and UGA, presenting workshops and cross-cultural seminars in the U.S. and internationally.

Michelangelo: The good, the bad, the ugly?
Shelly Zuraw

Until Caravaggio overtook him in the last decade, Michelangelo was the most famous Italian artist in the world. We all know his iconic works, the Roman Pietà, the David and the Sistine Ceiling. This class seeks first to consider these works in the wider context within which they were produced. The second session will focus on some of his less famous works—the Risen Christ, the Last Judgment, the Medici and Pauline Chapel as well as the Florentine Pietà—in order to address aspects of his career that appeal less to modern sensibilities, but that had more impact on his contemporaries.

A handout with the key works and some readings will be provided before the class, but no preparation is required.

Shelley Zuraw completed her dissertation for the Institute of Fine Arts, New York University, on the Florentine fifteenth-century sculptor Mino da Fiesole. Since 1992 she has been at the University of Georgia where she teaches art and architecture from 1260 until 1680 in Europe. Since 2007 she has taken a group of science majors to Italy every Maymester. Her particular area of research focus remains sculpture in Italy ca. 1400-1550.

Mini Creek Farm Visit  
Mary Brown

This visit to Mini Creek Farm will give participants an opportunity to see miniature horses and their colts.

This class is limited to 20 participants. We will meet at River’s crossing at 1:00 PM and carpool to the stable near Bethlehem.

Ms Brown has been raising miniature horses for about 5 years. She previously had full size horses. One day after meeting a lady who had some minis, she got hooked. She sold her full size horses and started buying the minis. She raises them as pets and sells the babies. The babies are all friendly when they leave for their new home.

Modify Your Home to Age in Place  
Craig Smith

Many seniors desire to stay at home, and this is why people are planning ahead to create a safe environment. In this workshop seniors and family members will gain an understanding of basic modifications to make a home safe, accessible, and functional. Participants will be able to...

- Plan for maintaining the home for the long term
- Identify possible long term physical challenges and modifications to address them
- Determine possible alterations to make it safer and more functional while living there long term
- Gain better awareness of solving limited accessibility issues within and around the house

Craig Smith is a Georgia State Licensed residential contractor with Vest Properties, Inc. He has over 35 years’ experience specializing in repairs, remodeling, insurance repairs, and accessibility modifications. A graduate of Southern Polytechnic State University with a Bachelor of Architectural Engineering Technology. He is CAPS certified (Certified Aging in Place Specialist) and experienced in adapting homes to seniors’ needs. Craig has spoken at the Georgia Gerontology Society Conference, ACCA, Barrow Regional Medical Center, and Churches.

Moss Gardening  
Robert Wyatt

Mosses are diminutive plants that are often overlooked, even by botanists, yet they are the second most diverse group of land plants, surpassed only by the angiosperms. Their potential as subjects for gardening and landscaping has been underappreciated. In this talk, Dr. Wyatt will introduce the audience to mosses, discuss their salient features, and answer basic questions about why to grow them, how to grow them, and which ones to grow.

Robert Wyatt is a Professor of Botany and Ecology at the University of Georgia, now retired. He has an undergraduate degree from the University of North Carolina at Chapel Hill and...
a Ph.D. from Duke University, both in Botany. An expert in the ecology and evolution of plant reproduction, he teaches Master Gardeners, Master Naturalists, and students in the Native Plant Certificate program at the State Botanical Garden of Georgia.

Nutrition for Successful Aging
Joan Fischer

This class will address common questions about nutrition for people over 50 years of age, including questions about special nutrient needs and recommendations to maintain health and improve quality of life. Relationships between certain foods such as fruits, vegetables, whole grains and fish and risk of chronic diseases will be discussed.

Joan Fischer has been a faculty member in the Department of Foods and Nutrition at the University of Georgia for over twenty years. She is also a Registered Dietitian/Nutritionist with many years of experience working in health care settings. She has had a long term interest in the nutrition needs of older adults and her research in recent years has focused on the associations between food and nutrient intake and chronic disease risk.

Oconee Hill Cemetery: A Visit in a Victorian Natural Landscape Cemetery
Charlotte Marshall

The class will begin with coffee in the repurposed Sexton’s House. Originally the home of the Sexton and his family, it now serves as a reception venue for families before and after funerals or for groups seeking a place to meet. Following coffee and a tour of the house, the walk of the oldest sections of the cemetery (opened 1856) will begin. The walk will not include the 80 acres opened in 1900 on the east side of the river.

Topics discussed on the walk will include Oconee Hill as a Victorian Natural Landscape cemetery; its history; burial practices; mortuary art with much explanation of Victorian symbolism; brief biographies of people who shaped 19th century Athens.

This class will meet at the Oconee Hill Cemetery. Class members should wear walking shoes suitable for steep hillsides. The walk will last about two hours; people needing to leave will be free to return to their cars at any point.

Charlotte Thomas Marshall is the author of Oconee Hill Cemetery of Athens, Georgia, Volume I, (2009) and recipient of the A-CHF’s 2010 Outstanding Publication Award. She is one of the many non-native Athenians who collect and preserve Athens history and joyously share it with all who are interested. A native of Donalsonville and graduate of Wesleyan College, she came to Athens in 1966 to work for UGA. The author of several books, she is presently editing The Tangible Past of Athens, Georgia due out this fall.

Origin and Age of the Earth
Raymonde Freeman-Lynde

In the early 19th Century, geologists, using simple principles to determine the relative ages of rocks, came to understand the great age of the earth and to establish a relative geologic time scale. Following the discovery of radioactivity at the end of the 19th Century, geochronologists developed techniques for radiometrically-dating rocks and then established a numerical geologic time scale by the middle 20th Century. About the same time, cosmologists established the even older age of the universe and elucidated the processes by which the earth and the universe originated.

Dr. Raymond Freeman-Lynde is Associate Professor of Geology at UGA. He has authored more than 15 research publications, including several on the evolution of carbonate platforms at passive continental margins, especially erosional retreat of the original Mesozoic platform edge and modification of original shallow-platform sediments by deep-marine water flowing into the platform from the eroded margins. He teaches courses dealing with earth’s history of global change, earth science, and dinosaurs and pterosaurs.

Pet Care in Your Senior Years
Christopher Elder, D.DV

Caring for companion animals in your senior years is a sometimes challenging and often rewarding endeavor. From raising puppies and kittens to caring for aging pets, this course will help you understand the issues facing seniors and their pets. This course will cover topics ranging from emergency and routine pet care to selecting the right pet for your lifestyle and the beneficial health effects of pet ownership. In addition, we will address some of the most interesting questions presented regularly by pet owners (e.g., why does my dog eat poop and why does my cat suffer from hairballs).

Dr. Elder received an undergraduate degree in Biology from the University of Georgia and a Masters in Biology from Georgia State University before earning his Doctor of Veterinary Medicine from the University of Georgia College of Veterinary Medicine. Dr. Elder enjoys all aspects of the practice of veterinary medicine but has special interests in internal

Passive Investing for and in Retirement
Warren Flick

This course develops the fundamentals and practice of passive investing and applies them to retirement finance. The course defines passive investing, discusses the reasons it has become so popular, describes how to do it, and compares it with active investing. The course is designed for any adult, regardless of investing experience, who wants to learn how to take charge of their own investments, achieve above average returns, and spend relatively little time managing investments. Participants will gain more from the course if they can use the Internet for research.

Dr. Flick earned a PhD in forest economics and a JD in law. He taught investment theory and practice for 30 years in undergraduate and graduate courses, and he has taught adult education courses in taxation and finance. He has managed his own investments and has advised students, clients, and others on investment practice. He is retired from UGA forestry and lives in Athens. He also blogs about retirement at Later Living (laterlivingblog.com).

**Poultry, Chickens and Me**  
*Nick Dale*

Poultry is the largest industry in Georgia. Chicken and eggs are a significant part of what we eat, and the whole process from the hatchery to the table is fascinating. Add to this all the issues that find their way into the press, such as: what do they really eat?, why do they grow so fast?, are hormones and antibiotics used?, what about environmental impact?, are chickens treated humanely?, what about organic and free range poultry? We have a lot to talk about! Y’all come!

**Location information will be sent to registered participants.**

Dr. Nick Dale is professor emeritus in the Poultry Science Department at UGA, having switched fields from Latin American history to agriculture after serving in the Peace Corps in Chile. In his capacity as poultry nutritionist, he has traveled professionally to more than 50 countries.

**Preventive Services Task Force: Update on Screening and Prevention**  
*Mark Ebell MD, M.M*

This lecture will describe the work of the USPSTF, and update the audience on recent updates to recommendations about screening and prevention. The focus will be on helping people understand the balance of benefits, harms and costs for preventive services, and how preventive services can sometimes do more harm than good.

Dr. Mark Ebell is a member of the faculty in the College of Public Health at the University of Georgia. A family physician, he is author of over 200 peer reviewed articles and editor or co-author of 8 books. Dr. Ebell is also a member of the US Preventive Services Task Force, is editor of “Essential Evidence”, and Deputy Editor of American Family Physician.

**Pride and Prejudice at 200: The Novel and Some Adaptations**  
*James Kissane*

Two-hundred years after Pride and Prejudice was published in 1813, Jane Austen holds remarkable popular appeal and continues to generate ingenious literary responses and to inspire film and TV adaptations of her various creations. All that, makes this a good time to celebrate Pride and Prejudice by reading it again, or if you’ve never read it to do so at last.

This class of four two-hour meetings will discuss the novel in the context of generous viewings from both celebrated and unusual dramatizations of this relatively old but ever-youthful work.

Prior to the first class meeting students should read *Pride and Prejudice* by Jane Austin in any good edition.

Dr. Kissane holds a Ph.D. in English from The Johns Hopkins University and is Professor Emeritus of Literature at Grinnell College, where he taught for 38 years. His publications include books, articles, and reviews on a variety of mostly 19th- and 20th-century topics and writers. In past semesters he has presented several different courses for LIR/OLLI.

Reading the Old Testament with Understanding and Awe, part 1
Tina Carlson

This study of the Hebrew scriptures will open your eyes and give you frameworks on which to hang what you already know! Part 2, offered in 2014, will be open to those who have completed Part 1. Though the instructor is Christian, every effort will be made to present the course without denominational or religious bias.

History and Analysis (first 4 weeks)
1. Chronological and theological history
2. Understanding Biblical literature
3. Document or source “criticism”
4. Editorial “criticism” and textual evolution

The Patriarchs
5. Abraham: characters and concepts
6. Jacob: Israel personified
7. Joseph: pivotal and evolutionary

This is the third time Tina has offered this course for OLLI. Students call her enthusiasm contagious! She has taught Sunday School, been a Director of Christian Education, written church school curriculum, given children’s sermons and done occasional gigs of clown ministry. Adult CE has been her focus for the last 20 years. A member of St. Gregory the Great Episcopal Church in Athens, she also has been active in eight other Anglican churches on four continents.

Red Mouth Lawyers: Tales at the Bar
Sharon Tate

This course will offer a glimpse of a bygone Georgia through the stories told by those who practiced law, along with more than a few about its practitioners, told by those who viewed law and politics as entertainment in our not too distant past.

You must register for this luncheon program no later than Tuesday, November 26, 2013.

Born and raised in Monroe, GA, Judge Tate is a Double Dawg, having received both her B.A. and J.D. degrees at UGA. After 7 years in Atlanta working for the Department of Energy, she returned to Athens with husband, Jeff Tate, (now husband emeritus) a native of Athens with their two children and practiced law for 14 years. She has been Probate Judge since January 1, 1997.

Recorded in Stone
Elizabeth Warner

This is an international overview of historic book marks as chronicled in amazing monuments and monoliths, mystic circles, imposing statues, cities carved from cliffs and within caves, as well as echoes of immortality etched to state creeds, statues and artistic interpretations of civilizations at their height.

Revelations! Stories and secret encryptions! Mysteries waiting to be solved! Legacies recoded in stone! The class is invited to share any and all discoveries. DVDs will be incorporated from History Channel and Global Spirit consultants.

Elizabeth Warner received her BA from Elmira College in New York and went on to earn her Master’s degree from Trinity College in Connecticut. She took doctoral course work at The University of Miami and Clayton College of Natural Health. She has written four textbooks which were utilized in college classrooms. She also served in the National Park Service as a Naturalist and Law Enforcement Officer in Key Largo and Everglades National Park. She is a retired professor of English, having taught at The University of Miami and Miami Dade College. Presently, she is a financial editor and proofreader for Thomas J. Herzfeld Advisors.

__________
Retirement Communities:  
We Know What They Are...or Do We?  
*Anne Glass*

This informative and entertaining presentation will include examples of retirement communities, both across the United States and internationally. The term “retirement communities” will be defined and a wide array of new options, such as elder cohousing, will be highlighted. Dr. Glass will also share a journal article she recently published on this topic.

Anne Glass, Ph.D., is internationally known as a leading researcher in the field of elder self-directed intentional communities. She is especially interested in the potential for older adults to provide mutual support and age better together, and how communities can facilitate this process. She is an Associate Professor and the Associate Director of the Institute of Gerontology in the College of Public Health at the University of Georgia. Visit her website: www.eldercohousing.info

**Rug Hooking Workshop**  
*Bénédicte Milward*

In 2000 Nancy Butts Thompson returned from her first “rug hooking camp” with the enthusiasm that inspired her to spread the word to all who would listen. She started with 10 hookers in her home on Crescent Lane, often referred to as The Hill. Inexperienced in the art of rug hooking but sharing and supporting each other the Crescent Lane Rug Hooking Guild grew until reaching above 60 members. The guild offers the opportunity to have an exciting time learning the historic 18th century art of rug hooking. The guild is a member of the Association of Traditional Hooking Artists, ATHA.

You will experience the mentoring of established guild rug hookers many of which have been published in Rug Hooking Magazine and received national awards for their art. Members of our guild will bring all the tools that you need (Frame, hook and scissors) and a little work for you to complete during the workshop. At the end of our sessions you should be able to hook a bigger piece by yourself.

**The course fee includes a class materials fee.**

*Bénédicte Milward* was born in Paris where she lived until the age of 24. She spent 2 years in Florida before returning to France where she and her family lived in Lyon for 20 years. She has been in Athens since 2002 and has a degree in Occupational Therapy and a Master degree in Religious Education. Bénédicte worked for 20 years as a Director of Religious Education in the diocese of Lyon (France) and then Atlanta. She is married, has four children and loves reading, singing, crafting, hiking and travelling.

**Same-Sex Marriage: What Comes Next**  
*Paul Kurtz*

The Supreme Court’s decisions in the same-sex marriage cases in June have left the issue not finally resolved. The focus of this course will be to detail what the Supreme Court did, the impact in Georgia and what might happen going forward.

Paul Kurtz is the recently-retired Associate Dean for Academic and Student Affairs and J. Alton Hosch Professor at the Law School. He earned his B.A. and J.D. degrees at Vanderbilt University and his LL.M. at Harvard University. During his tenure on the faculty, he regularly taught in the fields of Family and Criminal Law. He is the co-author of a nationally-recognized casebook in Family Law and serves Georgia as a Commissioner on Uniform State Laws. He has been active in a number of local non-profits, including Project Safe and Community Connection.

School Funding
Jeff Welch

The course gives a brief overview of how the tax process works from the Sales Tax Ratio Study to the levying of a School Millage rate, how the State of Georgia’s Funding Formula provides funds to school systems, and how the school budgeting process works.

Links to relevant websites can be found in the online course description at: http://bit.ly/18RdQIn

Jeff Welch retired from public education in 2009. While in public education he taught high school mathematics, was an assistant high school principal, a middle school principal, an elementary principal, and central office administrator. The last 10 years he was school superintendent in two different counties, Ben Hill and Oglethorpe. He is a member of the Georgia School Superintendents Association and is the President of the Georgia School Funding Association. He earned his Ed.D. from UGA in 1990.

So You Want To Be A Singer???
Frederick Burchinal

In a very condensed period of time, I will attempt to enlighten, amaze and demonstrate with the help of student singers all of the unknown, unseen, and highly critical aspects of singing technique and the performance process that the general public never sees from the audience’s perspective.

We will demonstrate the physical and mental discipline necessary to produce an acceptable sound while making it all look so easy and effortless even though the singer is working physically and mentally at full capacity.

You must register for this luncheon program no later than Tuesday, September 24, 2013.

Until 2006, my entire life had been spent learning about singing, opera roles and performing opera professionally with opera companies world-wide and most notably, twenty-two years as a Metropolitan Opera leading Verdi Baritone. Now my life is devoted to training our talented UGA singers who are hoping to have the same incredible experiences that I have enjoyed. I am Wyatt and Margaret Anderson Professor of Voice and Director of Opera, UGA.

Social Media Customization: The Feedforward Loop
Scott Champ

Social media makes it possible for us to customize media presentations in ways that felt like science fiction just a few years ago. Savvy media producers need to understand the new possibilities and potential. This presentation will focus on the ways that social media will shape the way that information is presented in the future. Specifically, it will detail the ways in which media presentations can include and exploit the personal information available through social media.

You must register for this luncheon program no later than Tuesday, August 27, 2013.

Scott A. Champ is the Director of the New Media Institute in the Grady College of Journalism and Mass Communication at the University of Georgia. The New Media Institute is an interdisciplinary unit created to explore the creative, critical,
and commercial implications of new digital communication technology. In his position as the Director of the New Media Institute, Dr. Shamp is helping companies map out strategies for success using new communication technologies and students carve out careers in the rapidly evolving field of new media.

**Stem Cell Research Update**
*Steve Stice*

The American Heart Institute estimates that 128 million Americans could be helped today with advances in stem cell therapies. In the US 1.5 million people suffer from Parkinson’s disease and there is no long-term treatment for this disease. Stem cell based therapies hold great promise for curing and can be used to discover new drugs for Alzheimer’s, Parkinson’s, spinal cord injury, ALS, SMA and other devastating diseases. However there are fundamental roadblocks, both scientific and ethical that must be overcome and these will be addressed in this class.

Dr. Stice is the co-founder of ArunA Biomedical and is a Professor, GRA Eminent Scholar, and Director of the Regenerative Bioscience Center at the University of Georgia. Dr. Stice obtained his PhD at the University of Massachusetts. Prior to joining the UGA, Dr. Stice was the CSO and co-founder of Advanced Cell Technology Inc. currently in clinical trials using stem cells. He has continually published and patented work including the first derivation of neurons for neurodegenerative disease.

**Stephen Crane, the Writer: Selected Works**
*Alexis Winger*

Although Stephen Crane died at 28, his writing career was varied, interesting, and prolific. Crane produced quality works of poetry, fiction, and non-fiction. This class will look at a cross section of his work: his novel The Red Badge of Courage, two short stories *The Bride Comes to Yellow Sky* and *The Open Boat*, a variety of his poems, and several articles he wrote as a reporter.

Prior to the first class students should read The Red Badge of Courage, any edition.

Alexis Winger attended Idaho State University, BYU, and Tennessee Tech University. She taught composition and grammar in UGA’s Division of Academic Enhancement for 29 years and most recently served as coordinator of the Writing Component of the Division’s Learning Center. She has given numerous presentations on teaching composition and grammar. After retiring from UGA in 2007, she has become very active in OLLI.

**Stopping Super Bacteria Before They Stop You**
*Branson W. Ritchie*

The alteration of lives by drug resistant, “flesh eating”, “super” bacteria are daily news. Fifteen years ago, researchers at the UGA foresaw the devastation that evolving drug resistant bacteria would have on people worldwide and began working on how to destroy these life-threatening pathogens before they reach your blood stream. Fortunately, they succeeded.

This course will provide an overview of the problems associated with super bacteria, your risk factors for infection and how you can use advanced antimicrobial solutions developed at UGA to manage wounds and reduce the chances of life-threatening infections.

Branson W. Ritchie, MS, PhD, is a Distinguished Research Professor at UGA. As director of the Emerging Diseases Research Group he and his team have developed more than 30 diagnostic, preventative or therapeutic tools to improve patient care. He has been chosen twice as the UGA Inventor of the Year. He is a frequent lecturer at professional conferences and he and his team have published more than 75 manuscripts associated with control of infectious diseases.

Tai Chi Easy
Tom Wittenberg

Tai Chi Easy is derived from the 108 moves of traditional Tai Chi. It consists of five flowing movements that promote vitality, self-healing, and relaxation. Among the benefits are improved balance, lower blood pressure, greater flexibility and resilience, decreased incidence of falls, and stress reduction. Participants will become familiar with the 4 elements of movement, self-administered massage, meditation, and breathing.

Tom Wittenberg earned an AB from Dartmouth and an MA from the University of Minnesota. Among his careers have been book publishing, recruiter for the Athens Area Chamber of Commerce, and Tai Chi trainer. He studied Tai Chi with Roger Jahnke, OMD, Institute of Integral Tai Chi and Qigong in Santa Barbara, California.

The Hobbit: Christian Themes in Tolkien’s Tale
Reverend Gordon R. Bienvenue

In December 2012, the first part of Peter Jackson’s film adaptation of The Hobbit was released, igniting renewed interest in Tolkien’s beloved book. The second part is scheduled to be in theatres this fall.

This class will examine Christian themes in J. R. R. Tolkien’s description of the exciting and thought-provoking adventures of Bilbo Baggins and in his description (among others) of the consistent power of Divine Grace in the journeys of life and the admonition that, “where your treasure is, there your heart will be also.” (cf: Matthew 6:21). Aspects of these themes as they appear in The Lord of the Rings will also be considered.

Prior to the first class, students are required to read The Hobbit By J.R.R. Tolkien, any edition.

Gordon Bienvenue is a recently retired United Methodist minister who was trained in spiritual direction at the Wellspring Institute of the New York Annual Conference of the United Methodist Church. Rev. Bienvenue has offered numerous classes in spiritual formation and in Christian art and literature in New York and in the Northeastern United States. He has had an abiding love for the writings of J. R. Tolkien since first reading the recently published Lord of the Rings while in high school.

Mondays, November 18 and 25, 2013 10:30-11:45 AM River’s Crossing 2 sessions 14.00 plus parking

The American Civil War
Stephen Berry

The Civil War spawned three constitutional amendments, led to the election of at least five presidents, destroyed the major social and economic institution of half the nation, freed over 4 million people (13% of the country’s entire population), swept 3 million men into military service, and killed more than 700,000 of them (as many as have died in all of America’s wars combined). In this class, Professor Berry explains not only how the war was won and lost but explores the underappreciated dimensions of how the war was experienced by common soldiers, civilians, women, children, animals, and the environment.

Stephen Berry is the Gregory Professor of the Civil War Era at the University of Georgia, where he teaches courses on the Civil War, Reconstruction, and Death and Dying in America. The author or editor of four books on mid-nineteenth century America, Professor Berry has received fellowships from the Andrew W. Mellon Foundation, the National Endowment for the Humanities, and the American Council of Learned Societies, among others.

The Rise and Fall of Pan Am
Rebecca Sprecher

Covers the history of Pan American World Airways, from its inception in the late 1920s to its sad end in December, 1991. We will discuss the people, the planes, Pan Am’s involvement in world affairs, the legendary on-board service, the flight crews, and how the airline became an American icon because of the famous people who flew them. Over 200 images accompany the presentation.

Rebecca “Becky” Sprecher is originally from Hopkinsville, Ky. She earned a B.A. in Communications from the University of North Carolina at Chapel Hill in 1972. She flew for Pan Am from 1972-1977 out of New York and Honolulu. After Pan Am, she had a ten year career with Xerox Corporation, also in Honolulu. While in Hawaii, she served on the Board of Directors for Hawaii Opera Theatre, and was a founding member of the Friends of The Contemporary Museum. She and her husband, Greg, moved to Beaufort, SC from the islands in 2001. She is the co-author of a novel about her experiences called Flying: A Novel.

Theatrical Design & Designers of the Music Halls of Paris
Sylvia Hillyard Pannell

This course will explore the Hargrett Rare Book and Manuscript Library’s Paris Music Hall and Freddy Wittop Theatrical Design Collections. These amazing collections include scenic and costume designs for such famous theaters as the Folies Bergère and the Moulin Rouge with original designs by world-famous artists Erté, George Barbier, Zig, and Wittop.

A centerpiece of the Hargrett Library, these collections, produced between WWI & WWII, place UGA in the forefront of theatrical design research. The class will be held in the beautiful new UGA Special Collections Libraries where primary research materials will be incorporated.

Sylvia Hillyard Pannell, Professor of Drama Emerita, UGA, holds the BS in Clothing & Textiles and MFA in Theatrical Design from FSU. A theatrical designer and educator, her experiences include both stage & film. Previous teaching appointments include Missouri State University, the University of New Orleans, and Tulane University. She has designed for the Asolo State Theatre, the College Light Opera Company at Highfield, the Jekyll Island Musical Comedy Festival, and ABC-TV.

Therapeutic Movement inspired by Qigong and Yoga

Gabriel Schmidt

This presentation is best considered as a guide to relaxation through techniques garnered from ancient proven systems for centering and healing oneself. Qigong, also known as Chi Gong and Chi Kung is the predecessor of the popular Tai Chi. There are various Chi Gong systems, just the same as yoga. I will introduce a select group of simple movements from the “Eighteen Movement” Chi Gong tradition, along with others from Hatha Yoga. This introduction course is to familiarize yourself, with no commitment, to these beneficial systems. This can be done in normal clothes, in a wheel chair or walker.

Gabriel Schmidt is a consummate educator and trainer, with formal education and degrees in Liberal Studies, Philosophy, Education and Vocational Rehabilitation. He has training and/or certification in a range of areas including Yoga, Qigong, Reiki, Yoga Therapy and Psychology. Additionally he is self-trained in working with the modern technologies that simplify our lives.

The overall goal of his work is to foster greater self-understanding and personal development in others; while his techniques and style are principally therapeutic in nature. Gabriel is well traveled and bilingual in Spanish. Also assisting others in finding their place with new technologies, in order to enjoy and participate in a modicum of what youth takes for granted is an important contribution to his over 50 peers.

Things Fall Apart: Writing a Major Song Cycle

Roger Vogel

This class will present the history of Things Fall Apart, a major song cycle based on the novel of the same name by Chinua Achebe.

Topics will include the inception, the selection of the text and acquiring permission, the composition of music, rehearsal, the premiere performance September 6, 2012, the creation of a video broadcast on WUGA TV, and the publication of a CD on Albany Records. Included will be audio and video examples.

Roger C. Vogel is Professor Emeritus of Music Theory and Composition at the University of Georgia. He has published more 110 musical compositions. Notable among his awards are prizes from the Roger Wagner Choral Composition Competition, the National Saxophone Workshop Composition Contest, the National Flute Association, the Delius Composition Competition, and the Albert Christ-Janer Award. His works have been performed in recitals and at conventions and festivals throughout the United States, South America, and Europe.

UGA over the Centuries  
_Nash Boney_

A pictorial presentation of over two centuries of UGA history.

Nash Boney taught history at UGA for 28 years, specializing in southern and especially Georgia history. Many of his publications dealt with UGA itself. Among his works are _A Pictorial History of the University of Georgia_ (UGA Press, 1984 and revised in 2000). He has also written 21 articles on UGA over the years in a wide variety of journals and newspapers.

Welcome to Sandy Creek Nature Center  
_Emilie Carr_

Join Emilie Carr and other SCNC Inc. board members for a look at the expanded Sandy Creek Nature Center. Learn about what opportunities the nature center offers for people of all ages, including how you can become involved. Tour the new exhibits, see behind the scenes of animal care, take a short hike to Claypit Pond and back along the North Oconee Greenway.

Participants are encouraged to bring a lunch to enjoy during the program.

Emilie Carr is the president of the SCNC Inc. Board. She is a retired school teacher. She enjoys hiking and spending her days volunteering at Sandy Creek Nature Center.

What Butterflies Tell us About a Changing World  
Jim Porter

From Coast Rica to Coastal Georgia, butterflies tell us of a changing world. Dr. Porter will bring to the Lecture more than 500 specimens of spectacular butterflies from Costa Rica, Bhutan, Nepal, China, Afghanistan, and Georgia.

He will use their stunning beauty to illustrate the conservation messages hidden within their changing patterns of migration and home range. The talk will compare and contrast conservation efforts around the world.

You must register for this luncheon program no later than Friday, September 30, 2013.

Dr. Porter is Meigs Professor of Ecology at the University of Georgia. He received his B.S. in Biology at Yale University, where he studied butterflies and met both Nabokov (who was studying the Lyciniid Blue Butterflies) and Robert Frost (who collected New England moths). Dr. Porter is one of only a few UGA faculty members who have won both its top research and teaching awards. In 2007, he won the Ecological Society of America’s Environmental Educator of the Year Award. Although Dr. Porter is now a marine biologist, he returned to entomological studies while teaching ecology in Costa Rica and is currently under contract to produce a monograph on the Cloud Forest Butterflies of Costa Rica.

What in the World is an Archetype?  
Anita Brannen

Our consciousness supposedly recognizes them even if we don’t. They are found in almost all stories from around the world. Do you have an archetype in your life story? Can learning about them give you a better understanding of what is going on in our world - and even our own thoughts? Let’s make the journey together through myth, literature, movies, and perhaps, your own psyche.

Anita has an AB in French literature from UGA and an MEd in counseling from UVA. She has done graduate work in French, Philosophy and History.

Wood Carving for Beginners  
Ken Calkin

This is a four session course to introduce participants to the fun of woodcarving. We will start with a basswood blank and learn the 2 basic cuts to shape the blank into a three dimensional figure.

Participants should have a beginners set of quality wood carving knives (about $65) such as the ones offered by Smokey Mountain woodcarvers (www.woodcarvers.com/kn600.htm) or Highland Woodworking (www.highlandwoodworking.com)

All other materials will be provided by the instructors.

Ken began woodcarving in 2001 and focuses on carving fish. He has taken “Best of Show” and blue ribbons at carving show competitions, including the World’s Fish Carving Competition in Springfield, IL in 2005. He will be assisted by Don Highfield, local woodcarver who taught at the carousel horse carving school in Chattanooga, TN.

World War II: The US Army and the defeat of Germany
COL (ret) Lawrence H. Saul

This course will look at role and contributions of the US Army in the defeat of Germany. Following on from the liberation of France, this course will examine Market-Garden, Hurtgen Forest, and the Ardennes (Battle of the Bulge) campaigns as prelude to the invasion and defeat of Germany.

COL (ret) Saul is a Senior Lecturer at the Naval Postgraduate School, Monterey, California. He served in the US Army for 34 years, with nearly 20 years overseas, mainly in Europe. He is a Battlefield Tour Guide with expertise in many key campaigns and battles, to include D-Day, The Hurtegen Forest, Market-Garden and the Battle of the Bulge. He has a BA in History and a Master in Security Strategy.

Write Your Poetry
Eugene Bianchi

The purpose of the course is to help participants write their own poems on personal life and other topics. The instructor will share some of his poems and lead the class according to one text In the Palm of Your Hand: the Poet’s Portable Workshop by Steve Kowit (about $10 to $12 on AMAZON, less used). Each week students will share some of their own work. Bring to the first class any journal writing or poetry you have already done.

Eugene C. Bianchi is a Professor of Religion Emeritus at Emory University. He is the founding director of the Emeritus College at Emory. He has published two novels: The Bishop of San Francisco: Romance, Intrigue and Religion and The Children’s Crusade: Scandal at the Vatican. He has also published three books on the spirituality of aging. In 2011, a personal memoir, Taking a Long Road Home was published. A collection of his poems, Ear to the Ground, will be published in 2013.

**Writing Radio Commentaries for Public Radio**  
*Pat Priest*

The class will listen to and critique public radio commentaries, considering the challenges inherent in writing for broadcast as well as issues of style and format. Participants will come to the second session with a commentary of their own to read to the class. These newly crafted pieces will be recorded informally and sent to WUGA’s program director for consideration for broadcast.

Priest is an independent writer and radio producer whose work has appeared on NPR’s “Living on Earth” and GPB’s “Georgia Gazette” and in the Washington Post, among other outlets. She was the Executive Producer for “True South” on WGAU and “Songsmiths” on WUGA. She’s a writing coach for the local storytelling organization Rabbit Box and runs a monthly nature-writing workshop at the Athens Land Trust. She holds a doctorate in Journalism from UGA’s Grady College.

**Yom Kippur War 1973**  
*Mark Rich*

October 6 of this year (September 14 on Jewish/Hebrew Calendar) marks the 40th anniversary of the start of the Yom Kippur War which began with simultaneous coordinated invasions by Egyptian and Syrian forces into territories held by Israel. Although caught by surprise, Israel halted the Egyptian and Syrian advances, and, after nearly three weeks of heavy fighting, and, with Israeli forces advancing to within striking distance of both enemy capitals, a cease fire was put into effect.

This lecture will cover the following main points: (1) military planning and disposition of forces prior to the invasions; (2) command structures of the combatant armies; (3) sequence of events that unfolded during course of the war; and (4) lasting effects of the war. Important roles played by Russia and the U.S. during that period also will be addressed.

Mark Rich is Professor Emeritus at UGA. He has extensive experience in regional geology, environmental geology, and marine science. He is a Senior Fellow in the Geological Society of America and a Registered Professional Geologist in the State of Georgia. He has presented lectures for OLLI dealing with historic battles and geological aspects of military operations.

## Spring 2013 Course Options

### Earth and Planetary Sciences Program

**Core Courses**
- Earth & the Solar System: How It All Began *(2 hrs)*
- Origin & Age of the Earth *(2 hrs)*
- Geological Hazards: Living With A Restless Planet *(5 hrs)*
- Excursion: “On the Track of the Yellowstone Hotspot” *(5 hrs)*

**Electives**
- Carbon, Climate and Controversy *(1 hr)*
- Geological Aspects of Two Man-Made Catastrophes *(1 hr)*

### Visual Arts Program

**Core Courses**
- **Photography Focus**
  - Digital Photography A *(4 hrs)*
  - Digital Photography B *(4 hrs)*
- **Art Appreciation Focus**
  - Art for Fifty Years *(1 hr)*
  - Exuberance of Meaning *(1 hr)*
  - Michelangelo *(1 hr)*
- **Fine Arts Studio Focus**
  - Wood Carving for Beginners *(4 hrs)*

**Electives for All Focus Areas**
- Core courses listed for either a Photography, Art Appreciation or Fine Arts Studio Focus also serve as electives in the other two areas.
OLLI@UGA Special Interest Groups

Beadiacs
Mary Ann Kelly, makelly@uga.edu, 706-613-6311
Individuals interested in beading, stringing, and simple wire work will get together once a week for three hours or so to work on their projects, brainstorm ideas and help each other when our work takes an oops! Participants who have no experience but would just like to see what it’s all about are welcome because beaders are happy to provide basic information and demonstrate techniques.

Bonsai
Claire Clements, claireclements@charter.net, 706-548-0211
Winnie Kelly, winniekelly@gmail.com, 706-548-1418
This informal Bonsai Group meets on the 4th Thursday of each month, from 2:30 to 4:30 PM. Field trips are made to a variety of places of interest to the group, and within driving distance, to view collections, and have the opportunity to purchase plants, materials and tools.

Book Discussion Group
Diana Cerwonka, drcerwonka@bellsouth.net, 706-543-7780
The Book Discussion Group meets on the second Thursday of the month from 3:00-4:00 p.m. Books are selected by group vote. Selections include fiction and nonfiction, contemporary and classic. Discussion is informal and participation is encouraged. Please feel welcome to join us at any meeting.

Chess
Bill Loughner, bill@loughner.com
Let’s get together and play a game or two! Players of approximately equal skill will be paired up to enjoy the game of chess.

Enjoy Opera in Athens
Nancy Songster, njsongster@charter.net, 706-548-8181
Our purpose is to learn more about opera, attend OLLI classes on Opera, enjoy live opera performances in the Athens area and attend the Metropolitan Opera Live in HD broadcasts at local Cinemas. We support UGA opera student productions, share information about opera, and offer a pre-opera meal, where the UGA opera graduate students present information about the current broadcast. The Met Opera broadcasts are on Saturday afternoon, October through May, with an evening encore broadcast three weeks later.

Hand Quilting
Sandy Jordan, sandyjordan@charter.net, 706-546-8537
The quilting group meets on the first and third Tuesdays of the month from 1-3 PM all year. We meet at members’ homes and just do hand quilting. We have room for interested persons wanting to learn or those who already do hand quilting.

Happy Hikers
Iris Miracle, happyhikers@yahoo.com, 706-353-6711
Hikes are short and long, easy to challenging, for fitness, fun and enjoyment of the marvels of nature. Each quarter, members receive a three-month calendar of one hike a month planned for trails in & around Athens and North Georgia.

Intermediate Bridge
Mary Brockway, marybrockway@att.net, 706-549-3160
This group meets on the first and third Wednesdays from 1:30 - 4:30 p.m. at the ACCA, 135 Hoyt St. If you are an experienced player and would like an afternoon of cards without the fuss of setting up tables, making snacks and drinks (coffee is available), we invite you to try our group.

Investing
Carey Winzurk, gwinzurk900@msn.com, 706-549-9643
The Investment Group meets once a month to exchange information about investing and investments. The group’s common denominator is a strong interest in exchanging information about the world of investments; economics and financial security. We are open to everyone who has interest in how things are run with no special knowledge needed. We have guest speakers from various professions including accounting, financials, government and law. Members are encouraged to bring any material(s) they think would be of interest to others. We have lively and informative meetings with the emphasis on fun.

Lady Dogs Basketball
Randall Abney, rabney@me.com, 706-850-6148
Contact Randall Abney to be part of one of the most exciting Special Interest Groups, Lady Dogs Basketball. The Lady Dogs are always in the top 20 teams in the nation and play fantastic basketball. Join 80+ other OLLI@UGA members who buy season tickets and sit together, cheering on the Lady Dogs. A season ticket for all home games is only $40, less than $5 per game. What a bargain! Don’t miss out on the fun and fellowship with other OLLI@UGA members at the Lady Dogs games. GO DAWGS!!!!

Lunch Bunch
Mercedes Rivera, 43rivers@gmail.com
This is a lively and friendly group. Its purpose is to socialize, meet new people, form new friendships and enjoy wonderful food at locally-owned Athens/Watkinsville restaurants. We get together the first Tuesday of each month at 11:30AM. Please email Mercedes Rivera to be added to the monthly email distribution list. Spouses and guests of OLLI @ UGA members are welcome. RSVPs are required.
Mac Fan(tic)s
Carol Smith, carol@vestproperties.com, 706-549-0298
To all those Mac Fanatics out there it is no secret that our meetings have been few and far between. What we need to move ahead is ideas and people who can help us smooth out the rough spots. Help us all be fanatics and send suggestions for programs or "get together" ideas to Jim Kradel at the above email address.

Mahjong
Heidi Naylor, alpsnv428@aol.com, 706-850-5013
Do you already know how to play Mahjong, or have you wanted to learn? I love to play and would love to find fellow fanatics – or future ones. Several groups have started on the east and west side of Athens. Let's get together! Join us any Thursday at 1PM. During the Summer, contact Renee Feldman, rf1942@gmail.com for meeting place and time.

Novice Bridge
Jimmie Hawes, ollinovicebridge@charter.net, 706-850-1278
This group is for people who already know the basics of playing bridge, but have not played in a long time or have not played a lot. It is lovely to meet in a relaxed atmosphere, to gain experience playing the best game ever with great people just like you. This group meets at the Unitarian Universal Fellowship building, 780 Timothy Road, every 1st and 3rd Wednesday of each month from 1PM to 4PM. The playing fee is $3 per session.

OLLI Paddlers
Jeff Engel, jengel47@gmail.com
Open to all who like to paddle their own boats: Canoes, kayaks, sit-on-tops, whatever. We get together and take trips to the numerous local (and not so local) lakes and rivers. Flatwater and whitewater, whatever people desire. If interested, contact Jeff Engel.

OLLI Rocks
David Dallmeyer, dallmyer@uga.edu
If you are interested in geology, this groups for you! Each meeting has a central presentation focus that includes presentations or viewing and discussion on selected earth science DVDs. Members can also participate in one-day geological excursions in the North Georgia region.

Picture This! Digital Photography Group
Chuck Murphy, picturethis.athens@gmail.com, 706-372-5406
PictureThis! is OLLI@UGA’s digital photography club. Our members range from complete novices to serious amateurs. We meet one evening per month at River’s Crossing, with date, time and agenda announced by email. Our meetings include a presentation on a photographic topic and a Member’s Showcase session for members to show off their work. We also schedule photo walks around Athens and trips to scenic venues and photo exhibits. To join the mailing list, contact Chuck Murphy.

Pinochle Posse
Tom Kenyon, tkenygroup@aol.com
The Pinochle Posse is for those who already play Pinochle, those who have not played for some time & those who never played but wish to learn! It would meet once or twice a month at a place and time to be determined.

Stitch and Chat
Kay Hymo, hymol@bellsouth.net, 706-546-7177
The Stitch and Chat Group meets on the first Thursday of each month throughout the year at 10 AM. We meet in homes, or other locations, such as Main Street Yarns in Watkinsville and Em’s Kitchen on Hawthorne. Most of our members are knitting, but bring any type of handwork and join us.

SoloSENIORS
Vic Armstrong, soloseniorsvic@aol.com, 706-769-1110
This special interest group fosters interaction and networking among unmarried members of OLLI@UGA. The group meets for dinner at area restaurants on the first Thursday of each month to welcome new members, to build and strengthen acquaintances, and explore mutual interests and opportunities.

Supper Club
Michael & Karen Mispagel, themispagels@gmail.com, 706-354-4799
We love sharing good food and conversation, cooking, and having fun. Each member takes a turn in hosting and everyone brings a dish to share. Email us now to join!

Vegetable Gardening
Art Crawley, 706- 353-3012
Carolyn Abney, Carolyn.in.Athens@gmail.com
Members of our group include newcomers to Athens trying to adapt techniques they brought with them; folks who are new to gardening, whether in Georgia clay or elsewhere; and certified Master Gardeners. We help each other with planning or planting a vegetable garden (whatever its size), swapping seeds and cuttings, sharing local knowledge, and touring both commercial nurseries and our own gardens.

Writing Memoir
Roger Bailey, Roger1731@charter.net, 706-540-1068
Writing about our lives, we share our prose and poetry to learn more about ourselves and each other as we hope to write memoir more effectively in regard to both form and content. We meet from 9:30 a.m. to 12:00 noon on the third Thursday each month in the conference room of the Bentley Center at the ACCA.
