

If you are an older adult interested in helping research on physical activity and thinking, UGA researchers need you!

UGA researchers are recruiting older adult volunteers for a study on physical activity and thinking.

Criteria: Between 65- 85 years old, right-handed, native English speakers, reasonably good health. Willing to participate in paper and pencil cognitive testing, a physical health assessment, and MRI and bone density scanning.

For more information, **email** or **call** the Neuropsychology and Memory Assessment Lab at: UGA_Cognitive_study@gmail.com or (706) 542-3076
