

December 20, 2018

Greetings and Happy Holidays!

As you will doubtless be aware, effective December 31, 2018, OLLI@UGA will no longer use the Abila/MemberFuse software that has provided member support for both class registration and communication for the past three-four years. From that date, we will complete the transition from Abila/MemberFuse to our two new software systems:

- **Mighty Networks for communication**

- In order for you to continue receiving information from the OLLI@UGA office and to communicate with SIGs or committees to which you belong, you will need to sign up for Mighty Networks **using your email address as your username**. You will be asked to create a password during the sign-in process. **The password you create for Mighty Networks should be different from the one you use for class registration (see below).**
- Instructions for signing up for Mighty Networks are available at <http://olli.uga.edu/olli-techknowledgy/>. If you have any questions or need help with the sign-in process, Cher Snyder (cher.snyder.phd@gmail.com; 909.490.5400) is available by email, phone, or text to help. *Please be sure to sign up for Mighty Networks as soon as possible.*
- You may also sign up for a Mighty Networks class at <https://form.jotform.com/83383761964166>. New class dates will be added each week through the end of January, so be sure to check periodically for dates and times that are convenient for you to attend. All classes are held in Room 143 at River's Crossing.

- **CampusCE for class registration**

- The new CampusCE class registration site can be accessed by clicking the red **OLLI@UGA Members** button in the top right-hand corner of the www.olli.uga.edu webpage. You may click on any of the six entries (How to Register, Membership, Donate to OLLI@UGA, Social Activities, Classes, Travel) on the main page of the registration site at any time to view their contents. *Please note that you will not be able to register for classes until general registration opens on January 16.*

- On Monday, December 10, the OLLI@UGA office sent you two email messages about the sign-in credentials you will need to access the new Campus CE class registration system. The first message identified your username as your first and last names separated by a dot; the second message provided you with a temporary password. You were asked to change the temporary password to a more secure password after signing in to the registration site.

These new software systems were selected to enhance your online member experience in OLLI@UGA. We recognize there will be a learning curve while you become familiar with our new communication and registration systems, but believe you will benefit substantially from both in a very short period of time.

As always, if you have any questions, please contact the OLLI office, either on 706.542.7715 or olli@uga.edu.

Best wishes for a wonderful New Year and we look forward to seeing you at River's Crossing during the Spring semester!
